2010 INTERIM RESULTS

RESULTS FOR THE SIX MONTHS ENDED 30 JUNE 2010

Highlights

- Profit attributable to shareholders amounted to HK\$193 million, an improvement of 20.4% over that for the corresponding period in previous year, translating into earnings of HK\$0.44 per share
- An increase in net interest income, lower impairment allowances required on loans and advances, and a reduction in impairment loss on available-for-sale securities had contributed to the improvement in profit attributable to shareholders
- The Bank made impairment allowances on loans and advances in the amount of HK\$20 million, a shrinkage of 63.5% against those made for the corresponding period in 2009
- Asset quality of loans and advances continued to improve with gross impaired loans as a percentage of gross advances to customers descended by 25% from 0.16% in December 2009 to 0.12% in June 2010 and gross rescheduled loans as a percentage of gross advances to customers diminished by 10% from 1% in December 2009 to 0.9% in June 2010
- Net interest income moved up 3.8% from that of the corresponding period in 2009 to HK\$411 million
- Total loans to customers rose 8.4% from December 2009 to HK\$35,506 million
- Net interest margin widened 4.2% from 1.2% in the corresponding period in 2009 to 1.25%
- Capital adequacy ratio eased 4.5% from December 2009 to 15.24% with core capital ratio at 12.11%
- The Bank's core business lines and overall financial health are sound, and its capital adequacy and liquidity ratios are well above the relevant statutory requirements
- An interim cash dividend of HK\$0.10 per share is proposed for the six months ended 30 June 2010 (2009 interim cash dividend of HK\$0.08 per share)

The Directors of the Bank are pleased to announce the unaudited consolidated results of the Bank and its subsidiaries (the “Group”) for the six months ended 30 June 2010, together with the comparative figures for the last corresponding period. This interim financial information is unaudited, but has been reviewed by Deloitte Touche Tohmatsu, in accordance with Hong Kong Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants, and the Bank’s Audit Committee.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED 30 JUNE 2010

1. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and with Hong Kong Accounting Standard 34 “Interim Financial Reporting”.

2. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared under the historical cost convention except for investment properties and certain financial instruments that are measured at fair values.

The accounting policies adopted in the 2009 annual financial statements have been applied consistently to this interim financial information except for the following:

There are a number of new or revised standards, amendments and interpretations (“new or revised HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), which are effective for the Group’s financial year beginning on 1 January 2010. Except as described below, the adoption of these new or revised HKFRSs had no material effect on the condensed consolidated financial statements of the Group for the current or prior accounting periods.

Amendment to HKAS 17 Leases

As part of Improvements to HKFRSs issued in 2009, HKAS 17 Leases has been amended in relation to the classification of leasehold land. Before the amendment to HKAS 17, lessees were required to classify leasehold land as operating leases and to present leasehold land as prepaid lease payments in the consolidated statement of financial position. The amendment has removed such a requirement. Instead, the amendment requires the classification of leasehold land to be based on the general principles set out in HKAS 17, that is, whether or not the risks and rewards incidental to ownership of a leased asset have been transferred substantially to the lessee.

In accordance with the transitional provisions set out in the amendment to HKAS 17 Leases, the Group reassessed the classification of unexpired leasehold land as at 1 January 2010 based on information which existed at the inception of these leases. Leasehold land which met finance lease classification have been reclassified from prepaid lease payments for land to property and equipment retrospectively, resulting in a reclassification of prepaid lease payments for land with carrying amount of HK\$324,980,000 as at 1 January 2009 and HK\$318,969,000 as at 31 December 2009 as property and equipment that are measured at cost model. The application of the amendment has had no significant financial impact to profit or loss for current or prior accounting periods.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED 30 JUNE 2010

2. PRINCIPAL ACCOUNTING POLICIES - continued

The effect of changes in accounting policies described above on the financial position of the Group as at 31 December 2009 is as follows:

	As at 31 December 2009 HK\$'000 (originally stated)	Adjustments HK\$'000	As at 31 December 2009 HK\$'000 (restated)
Property and equipment	443,688	318,969	762,657
Prepaid lease payments for land	<u>321,533</u>	<u>(318,969)</u>	<u>2,564</u>

The effect of changes in accounting policies described above on the financial position of the Group as at 1 January 2009 is as follows:

	As at 1 January 2009 HK\$'000 (originally stated)	Adjustments HK\$'000	As at 1 January 2009 HK\$'000 (restated)
Property and equipment	469,724	324,980	794,704
Prepaid lease payments for land	<u>328,127</u>	<u>(324,980)</u>	<u>3,147</u>

The Group has not early applied the following new or revised standards, amendments and interpretations that have been issued but are not yet effective:

HKFRSs (Amendments)	Improvements to HKFRSs 2010 ¹
HKAS 24 (Revised)	Related party disclosures ⁴

⁴ Effective for annual periods beginning on or after 1 January 2011

⁵ Effective for annual periods beginning on or after 1 January 2013

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED 30 JUNE 2010

2. PRINCIPAL ACCOUNTING POLICIES - continued

HKFRS 9 Financial Instruments introduces new requirements for the classification and measurement of financial assets and will be effective from 1 January 2013, with earlier application permitted. The Standard requires all recognised financial assets that are within the scope of HKAS 39 Financial Instruments: Recognition and Measurement to be measured at either amortised cost or fair value. Specifically, debt investments that (i) are held within a business model whose objective is to collect the contractual cash flows and (ii) have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost. All other debt investments and equity investments are measured at fair value. The application of HKFRS 9 might affect the classification and measurement of the Group's financial assets.

The management of the Bank anticipates that the application of the other new or revised standards, amendments and interpretation will have no material impact on the results and the financial position of the Group.

3. SEGMENT INFORMATION

The Group's operating segments, based on information regularly reviewed by the chief operating decision maker (Executive Committee) for the purpose of allocating resources to segments and assessing their performance, are as follows:

1. Corporate and retail banking
2. Treasury activities
3. Securities dealing
4. Others comprising investment holding, insurance, other investment advisory services and property investments.

9. IMPAIRMENT LOSS ON GOODWILL

For the six-month period ended 30 June 2010, the management has reviewed the goodwill for impairment testing purposes. The review comprises of a comparison of the carrying amount and the value in use of an acquired subsidiary (the cash-generating unit) to which the goodwill has been allocated. The acquired subsidiary is involved in insurance business.

The value in use calculations primarily use cash flow projections based on five-year financial budgets approved by management and with a stable growth beyond the five-year projection period. There are a number of assumptions and estimates involved for the preparation of cash flow projections for the period covered by the approved budget. Key assumptions include a growth rate of 4% (2009: 0%) in revenues and selection of discount rates of 12% (2009: 12%).

The management of the Group determines that there is no impairment loss on the goodwill for the six-month period ended 30 June 2010.

A goodwill impairment loss of HK\$10,000,000, representing the excess of the carrying amount above the value in use of the cash generating unit described above, was recognised for the six-month period ended 30 June 2009.

10. TAXATION

Hong Kong Profits Tax is calculated at 16.5% (2009: 16.5%) of the estimated assessable profit for the period.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

11. EARNINGS PER SHARE

The calculation of basic earnings per share is based on the profit attributable to owners of the Bank of HK\$193,392,000 (2009: HK\$160,629,000) and on 435,000,000 (2009: 435,000,000) ordinary shares in issue during the period.

There is no potential dilutive ordinary shares in issue during both periods.

12. DIVIDENDS

On 29 April 2010, a dividend of HK\$0.20 per share totalling HK\$87,000,000 was paid to shareholders as the final dividend for 2009.

On 30 April 2009, a dividend of HK\$0.05 per share totalling HK\$21,750,000 was paid to shareholders as the final dividend for 2008.

The directors have determined that a total amount of interim dividend in respect of the financial year ending 31 December 2010 of HK\$43,500,000 (2009: HK\$34,800,000) at a rate of HK\$0.10 (2009: HK\$0.08) per share should be paid to the shareholders of the Bank whose names appear in the Register of Members on 22 September 2010.

With an original maturity of over one year	2,804,064	1,821,771
	<u>17,444,252</u>	<u>15,586,246</u>

Most of contingent liabilities and commitments are denominated in Hong Kong dollars.

The replacement cost and credit risk weighted amounts of the contingent liabilities, commitments and derivatives exposures are as follows:

	30 June 2010		31 December 2009	
	Replacement cost HK\$'000	Credit risk weighted amount HK\$'000	Replacement cost HK\$'000	Credit risk weighted amount HK\$'000

	<u>6,108</u>	<u>3,250,223</u>	<u>331</u>	<u>2,834,882</u>

The above amounts do not take into account the effects of bilateral netting arrangements.

Replacement cost is the cost of replacing all contracts that have a positive value when marked to market (should the counterparty default on its obligations) and is obtained by marking the contracts to market. Replacement cost is a close approximation of the credit risk for these contracts at the balance sheet date.

The credit risk weighted amount is the amount which has been calculated in accordance with the Banking (Capital) Rules (the “Capital Rules”), which came into operation on 1 January 2007, and the guidelines issued by the HKMA.

	%	%
Average liquidity ratio for the period	<u>45.01</u>	<u>47.96</u>

The capital adequacy ratio is compiled in accordance with the Capital Rules under section 98A of the Banking Ordinance (Chapter 155 of the Laws of Hong Kong) (“Banking Ordinance”) for the implementation of the “Basel II” capital accord, which became effective on 1 January 2007. In accordance with the Capital Rules, the Bank has adopted the “standardised approach” for the calculation of the risk-weighted assets for credit risk, “standardised (market risk) approach” for the calculation of market risk and “basic indicator approach” for the calculation of operation risk. The capital adequacy ratio is consolidated, under the Capital Rules, with reference to the financial information of the Bank, Chong Hing Finance Limited, Liu Chong Hing Banking Corporation, Cayman, Right Way Investments Limited, Gallbraith Limited, Chong Hing Information Technology Limited and Card Alliance Company Limited.

The average liquidity ratio is calculated as the ratio, expressed as a percentage, of the average of each calendar month’s average ratio, as specified in the Fourth Schedule of the Banking Ordinance, with reference to the financial information of the Bank, Chong Hing Finance Limited, Liu Chong Hing Banking Corporation, Cayman, Right Way Investments Limited and Gallbraith Limited.

Total capital base after deductions	6,437,570	6,324,355
Total risk-weighted amount	42,229,704	39,644,144

Deductions from total capital base mainly include investments in subsidiaries of which their risk weighted assets have not been consolidated into the total risk weighted assets of the Group, which mainly conduct non-banking related business. Those subsidiaries are Chong Hing Commodities and Futures Limited, Chong Hing Insurance Company Limited, Chong Hing (Management) Limited, Chong Hing (Nominees) Limited and Chong Hing Securities Limited.

SUPPLEMENTARY INFORMATION

FOR THE SIX MONTHS ENDED 30 JUNE 2010

10. Statement of compliance

In preparing the interim financial information for 2010, the Bank has fully complied with the Banking (Disclosure) Rules.

11. Basis of consolidation

This interim financial information covers the condensed consolidated financial statements of the Bank and all its subsidiaries and included the attributable share of interest in the Group's jointly controlled entities.

In preparing the capital adequacy ratio and liquidity ratio of the Group, they are prepared according to the basis of consolidation for regulatory purposes. The main difference between the consolidation basis for accounting and regulatory purposes is that the former includes the Bank, all its subsidiaries and the attributable share of interests in the Group's jointly controlled entities whereas the latter includes the Bank and only some of the Group's subsidiaries which mainly conduct banking business or other businesses incidental to banking business.

12. Other operating income

Included within fees and commission income and fees and commission expense, other than amounts included in determining the effective interest rate, are HK\$39,475,000 (2009: HK\$33,159,000) and HK\$22,666,000 (2009: HK\$19,518,000) arising from financial assets and financial liabilities that are not at fair value through profit or loss, respectively.

13. Risk management

The Group has established policies, procedures, and controls for measuring, monitoring and controlling risks arising from the banking and related financial services business. These policies, procedures, and controls are implemented by various committees and departments of the Group and are regularly reviewed by the Board of Directors. The internal auditors also play an important role in the risk management process by performing regular, as well as sporadic compliance audits.

The management of assets and liabilities of the Group is conducted under the guidance of the Asset and Liability Management Committee (the "ALCO"). The ALCO holds meetings every two weeks, and more frequent meetings when required, to review and direct the relevant policies, and to monitor the bank-wide positions. The day-to-day management of the liquidity, foreign exchange, interest rate and other market risks, and the compliance with the ALCO and the Risk Management and Compliance Committee (the "RMCC") policies are monitored by the Treasury Management Department and the Finance Department with the assistance of various qualitative and quantitative analyses.

SUPPLEMENTARY INFORMATION

FOR THE SIX MONTHS ENDED 30 JUNE 2010

13. Risk management – continued

In addition to complementing the ALCO in the management of assets and liabilities, the RMCC also oversees the implementation of the policies and procedures established for managing the Group's operational, legal, and reputation risks and compliance requirements.

(i) Capital management

The Group has adopted a policy of maintaining a strong capital base to support its business growth. Capital adequacy ratio has remained well above the statutory minimum ratio of 8% for the past five financial years.

(ii) Credit risk

Credit risk is the risk that a customer or counter-party may fail to meet a commitment when it falls due.

The Group's lending policy sets out in detail the credit approval and monitoring mechanism, the loan classification system and provisioning policy, which is established in accordance with the requirements and provisions of the Banking Ordinance and the guidelines issued by the HKMA.

Day-to-day credit management is performed by the Loans Committee with reference to the creditworthiness, and concentration risk of and the collateral pledged by the counterparties. Decisions made by the Loans Committee are reviewed regularly by the Executive Loans Committee comprising executive directors.

(iii) Liquidity risk

Liquidity risk is the risk that the Group is unable to meet its current obligations when they fall due.

The Group has laid down liquidity policy which is reviewed regularly by the Board of Directors. This policy requires the Group to maintain a conservative level of liquid funds on a daily basis to ensure the availability of adequate liquid funds to meet all obligations, and the compliance with the statutory liquidity ratio requirement. The liquidity position is monitored through statutory liquidity ratio, loan-to-deposit ratio, maturity profile of assets and liabilities, and inter-bank transactions undertaken by the Group.

SUPPLEMENTARY INFORMATION

FOR THE SIX MONTHS ENDED 30 JUNE 2010

13. Risk management – continued

(iv) Market risk

Market risk is the risk of losses in assets, liabilities and off-balance sheet positions arising from movements in market rates and prices.

Market risk arising from the trading book is considered immaterial, as the Group does not maintain significant positions of financial instruments leading to foreign exchange, interest rate, commodity and equity exposures. Structural foreign exchange exposure is explained further under (v) foreign exchange risk.

(v) Foreign exchange risk

The Group does not have any significant foreign exchange risk as foreign exchange dealing is moderate. Structural foreign exchange exposure arising from investments in foreign branches and subsidiaries is accounted for in the reserves account. Day-to-day foreign exchange management is performed by the Treasury Management Department within approved limits.

The Group takes on exposure to effect of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The Board of Directors sets limits on the level of exposure by currency and in total for both overnight and intra-day positions, which are monitored daily. Off-balance sheet notional position represents the contractual amounts of foreign currencies bought and sold under foreign exchange contracts. Bought currency is represented by positive amount and sold currency is represented by negative amount.

(vi) Interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Group takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on both its fair value and cash flow risks. Interest margins may increase as a result of such changes but may reduce or create losses in the event that unexpected movements arise. Limits are set on the level of mismatch of interest rate repricing that may be undertaken, which is monitored regularly.

The Group does not carry interest rate positions on its trading book. Certain interest rate contracts entered into to manage the Group's own risk are classified as trading securities. Interest rate risk arises primarily from the timing differences in the re-pricing of, and the different bases of pricing interest-bearing assets, liabilities and commitments, and from positions of non-interest bearing balances. Interest rate risk is monitored by regular sensitivity analyses of the net re-pricing gap and of different scenarios of pricing bases of assets and liabilities grouped with reference to their next contractual repricing date or maturity date.

SUPPLEMENTARY INFORMATION

FOR THE SIX MONTHS ENDED 30 JUNE 2010

13. Risk management – continued

(vii) Operational and legal risk

Operational risk is the risk of unexpected losses attributable to human error, systems failures, frauds, or inadequate internal controls and procedures.

Executive directors, department heads, in-house legal counsels, and internal auditors collaborate to manage operational and legal risks through proper human resources policies, delegation of authorities, segregation of duties, and timely and accurate management information. Senior management and the Audit Committee are accountable to the Board of Directors for maintaining a strong and disciplined control environment to provide reasonable assurance that the operational and legal risks are prudently managed.

A comprehensive contingency plan is available to ensure that key business functions continue and normal operations are restored effectively and efficiently in the event of business interruption.

(viii) Reputation risk

Reputation risk is the risk to earnings or capital arising from negative public opinion.

Reputation risk is managed by ensuring proper and adequate communications and public relation efforts to foster the reputation of the Group. A risk management mechanism guided by the senior management including executive directors and senior managers has been established to manage the media exposure, handle customers' and other relevant parties' complaints and suggestions, and to ensure that new business activities and agents acting on our behalf do not jeopardise our reputation.

INTERIM DIVIDEND

The directors have declared an interim cash dividend for 2010 of HK0.10 per share, payable on Thursday, 30 September 2010 to shareholders whose names are listed on the register of members of the Bank on Wednesday, 22 September 2010.

CLOSURE OF REGISTER OF MEMBERS

The register of members of the Bank will be closed from Monday, 20 September 2010 to Wednesday, 22 September 2010 (both days inclusive), during which period no transfer of shares can be registered. In order to qualify for the 2010 interim cash dividend, all transfer documents, along with the relevant share certificates, must be lodged for registration with the Bank's share registrar and transfer office, Computershare Hong Kong Investor Services Limited of Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Hong Kong, not later than 4:30 pm on Friday, 17 September 2010.

PURCHASE, SALE OR REDEMPTION OF THE BANK'S LISTED SECURITIES

Chong Hing Securities Limited ("CHS"), a wholly-owned subsidiary of the Bank, sold 3,000 ordinary shares in the Bank (which were previously purchased by CHS inadvertently during its normal course of stockbroking business) on 8 March 2010 on The Stock Exchange of Hong Kong Limited for HK\$42,420. Save for the above, neither the Bank nor any of its other subsidiaries had purchased, sold or redeemed any of the Bank's listed securities for the six months ended 30 June 2010.

CORPORATE GOVERNANCE

The directors confirm that, for the accounting period for the six months ended 30 June 2010, the Bank has complied with the Supervisory Policy Manual “Corporate Governance of Locally Incorporated Authorized Institutions” issued by the Hong Kong Monetary Authority and the Code on Corporate Governance Practices as set out in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Corporate Governance Code”) except, under the Bank’s Articles of Association, one-third (or, if the quotient resulting from the division of the number of directors by three is not a whole number, the number nearest one-third) of the directors for the time being, who have been longest in office since their last election, shall be subject to retirement by rotation and re-election at each annual general meeting. As between persons who became directors on the same day, those to retire shall (unless they otherwise agree between themselves) be determined by drawing lots. And as to those persons additionally appointed as directors or appointed as directors to fill casual vacancies by the board of directors, they shall hold office only until the next following annual general meeting and shall then be eligible for re-election (but not to be taken into account in determining the directors or the number of directors who are to retire by rotation) at that annual general meeting. The directors consider the Bank’s practice to be an appropriate alternative to that recommended under A.4.1 and A.4.2 of the Corporate Governance Code in respect of the appointment of non-executive directors for a specific term and the retirement by rotation of directors.

Furthermore, the Bank has adopted a code for securities transactions by directors with terms no less exacting than those set out in the Model Code for Securities Transactions by Directors of Listed Issuers under Appendix 10 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Model Securities Transactions Code”). After specific enquiry by the Bank, all of the directors confirmed that, for the accounting period for the six months ended 30 June 2010, they had complied with the required standards as set out in both the Model Securities Transactions Code and the Bank’s own code in question.

PUBLICATION OF RESULTS ON THE WEBSITES OF THE STOCK EXCHANGE OF HONG KONG LIMITED AND THE BANK

The Bank’s Interim Report 2010, containing the relevant information required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, will be published on the websites of The Stock Exchange of Hong Kong Limited and the Bank in due course.

CHAIRMAN'S STATEMENT

Economic Review

The year of 2010 started off with Hong Kong economy showing substantial recovery. Compared with that of the same period last year, gross domestic product for the first quarter increased by 8.2% in real terms. Unemployment rate gradually came down to 4.6% since the third quarter last year. Although market sentiment was subdued because of the introduction by the Hong Kong Government in May of certain measures to tighten real estate marketing practices, second-hand sales remained active. In the first half of 2010, total value of registered sale and purchase agreements for second-hand private residential properties exceeded that of the second half of the previous year. As for the stock market, Hang Seng Index zigzagged downwards due to external factors including the European debt crisis and mainland China's tightening of policies. As of the last trading day of the first half year, Hang Seng Index barely stood above 20,000 points, recording a decline for the second quarter in a row.

After its rate-fixing meeting in June, the US Federal Reserve Board ("FRB") announced that it would keep the target range for the federal funds rate at 0% to 0.25%, and restated that it would maintain a low rate for a relatively extended period. In spite of external instability arising from deficit-cutting measures introduced feverishly by various countries in Europe, the FRB stated that the US economy was recovering with an improving labour market. However, in light of factors such as high unemployment rate and credit crunch concerns, the FRB expected the pace of recovery to remain moderate for a considerable period.

Results Announcement

For the first half of 2010, on an unaudited, consolidated basis, profit attributable to shareholders amounted to HK\$193 million, an improvement of 20.4% over that for the corresponding period in previous year, translating into earnings of HK\$0.44 per share. Net asset value per share (before interim dividend), compared with that of the corresponding period in previous year, edged up 2.8% to HK\$14.45. An increase in net interest income, lower impairment allowances required on loans and advances, and a reduction in impairment loss on available-for-sale securities had contributed to the improvement in profit attributable to shareholders.

As of 30 June 2010, compared with the figures as of 31 December 2009, total customers' deposits ebbed 0.5% to HK\$60,515 million and total loans to customers (after accounting for impairment allowances) rose 8.4% to HK\$35,506 million. The loan increases were attributable mainly to those loans made to corporate customers for use in Hong Kong and mainland China. Capital adequacy ratio eased 4.5% to 15.24%, while average liquidity ratio for the six months ended 30 June 2010 lessened 6.2% to 45.01%. Loan-to-deposit ratio grew 8.6% to 53.81%. Gross impaired loans as a percentage of gross advances to customers fell 25% to 0.12%. Total assets gained 1% to HK\$70,728 million. Shareholders' funds (before interim dividend) ascended 1.8% to HK\$6,287 million. Your board has recommended paying the interim cash dividend of HK\$0.10 per share for the six months ended 30 June 2010 to shareholders whose names appear in the Register of Members at the close of business on Wednesday, 22 September 2010.

Profit Analysis

For the first half of 2010, on an unaudited, consolidated basis, net interest income moved up 3.8% from that of the corresponding period in 2009 to HK\$411 million. Increase in loans and advances to customers together with interest rate and liquidity management in treasury activities had helped to boost net interest income. Net interest margin widened 4.2% from 1.2% to 1.25%. After accounting for the net fee and commission income, which amounted to HK\$110 million, net losses on financial assets at fair value through profit or loss, which amounted to HK\$5 million and other operating income, which amounted to HK\$73 million, total operating income was HK\$589 million and total operating expense was HK\$349 million. Even though the number of customers for the securities dealings services continued to grow, fee and commission income from the services moved down by 10% because investors' sentiments were affected by the volatility in the Hong Kong stock market in the first half of 2010. Cost-to-income ratio increased 3.3% to 59.22%. Operating profit before impairment allowances and net gain on disposal dropped 10.5% to HK\$240 million. The Bank made impairment allowances on loans and advances in the amount of HK\$20 million, a shrinkage of 63.5% against those made for the corresponding period in 2009. Asset quality of loans and advances continued to improve with gross impaired loans as a percentage of gross advances to customers descended by 25% from 0.16% in December 2009 to 0.12% in June 2010 and gross rescheduled loans as a percentage of gross advances to customers diminished by 10% from 1% in December 2009 to 0.9% in June 2010. As of 30 June 2010, the Bank recorded a comfortable 346% provision coverage of impaired loans and advances (compared with that of 204% as of 30 June 2009). The Bank's exposures to financial institutions are confined to those with high credit ratings and its exposures to countries are likewise limited to those with strong financial positions. The Bank's core business lines and overall financial health are sound, and its capital adequacy and liquidity ratios are well above the relevant statutory requirements. Moreover, the Bank's non-performing loan ratio is low and its asset quality good.

Business Review

Corporate and Retail Banking

Loan and Deposit Business

In the first half of 2010, the number of mortgage loan applications received through branches was on the rise. Compared with the same period last year, residential mortgage loans more than doubled in both the number of cases and the size of loan amounts. Besides, the Bank, dedicated to expanding its customer base for deposit and personal loans, launched a variety of preferential offers and marketing campaigns to actively attract a broader spectrum of customers.

In respect of corporate loans, the Bank highly supported the Hong Kong Government's Loan Guarantee Scheme and Special Loan Guarantee Scheme for the small and medium-sized enterprises ("SMEs" collectively and "SME" singly) to foster the Bank's business growth. In March 2010, the Bank participated in the "Intellectual Capital Management Consultancy Programme" organised by the Intellectual Property Department. By becoming one of the five "Partnering Lending Institutions" under the Programme, the Bank assists participating SMEs to maximise their business potential and attain mutual growth. The Bank also strove to enlarge its corporate clientele and adopted a proactive strategy, resulting in a steady growth in the relevant business for the first half of 2010 compared with that of the corresponding period last year.

In addition, the Bank has continued striving to provide the most cordial, flexible and tailor-made banking services to SMEs. Such efforts were highly recognised by the industry, as the Bank was again granted the "Best SME's Partner Award" by the Hong Kong Chamber of Small and Medium Business.

Card Business

Compared with the same period last year, the Bank recorded growth in both the number of credit cards issued and the amount of credit card spending for the first quarter of 2010. Merchant-billed turnover recorded a double-digit growth, in which the amount from China Unionpay merchants was admirable with a substantial rise of over 50%. In March 2010, the Bank received the "Largest International Incoming Volume Growth" award from VISA. Looking ahead, the Bank will continue to maintain healthy business growth by expanding its card business.

In light of the robust economic development of mainland China, the number of tourists from there is expected to increase considerably. The Bank will further expand its China Unionpay merchant acquiring services. Besides, the Bank will offer customers with more diversified services. Concerted efforts will be devoted to developing new credit card products to cater for customer needs at different levels.

Treasury Activities

Treasury activities mainly comprise money market operations and foreign exchange services. Money market operations include centralised cash management for deposit taking, interbank funding and investments in the capital markets. All these activities are carried out under prudent risk management. Income from foreign exchange activities is generated from services provided to customers in the form of foreign exchange trading and forward contracts.

It was noticeable that, since the first half of 2010, financial stability has returned to Asia. In Hong Kong, the competition among banks for customer deposits became fierce in the second quarter. The Bank has striven to continually maintain both its market share in customer deposits and the spread of net interest margin. The Bank managed to maintain a positive growth in net interest income and margin compared with that of the same period last year through interest rate and liquidity management in the money market operations and increases in advances to customers and investments in the capital markets.

Securities Dealing

Affected by the gradually tightening measures introduced by the Central Government to finetune the economy as well as the European debt crisis, the Hong Kong stock market experienced a prolonged decline in the number of transactions and total funds raised through initial public offerings in early 2010. However, Chong Hing Securities Limited (“Chong Hing Securities”), a wholly-owned subsidiary of the Bank, managed to achieve satisfactory results against such a lackluster market. In January this year, Chong Hing Securities launched “Chong Hing Mobile Securities Services”, a mobile securities trading platform compatible with all mobile networks and various smartphone systems in Hong Kong. The platform enables customers to deal with their securities investments anytime, anywhere. With the launch of a well-executed marketing campaign, the service was positively received by the customers. Compared with that of the same period last year, the number of users of electronic securities trading services rose by more than 20% for the first half of the year. For the rest of the year, provided the China, US and European stock markets restabilise, Chong Hing Securities can look forward to continually growing its business by benefiting from the securities turnover in the Hong Kong market, which is expected to pick up gradually as capital flows back.

Others

Insurance Business

Chong Hing Insurance Company Limited (“Chong Hing Insurance”), a wholly-owned subsidiary of the Bank, further expanded its commercial and individual insurance businesses, offering comprehensive coverage to customers. The insurance business grew steadily for the first half of the year, with satisfactory increase in premium income. Chong Hing Insurance will continue to adopt a more proactive marketing strategy in a bid to achieve even better results.

Corporate Responsibility

In order to practise the preaching of serving as a “community bank” and providing a comprehensive range of high quality banking services to the local community, the Bank continued to optimise its service network. In June 2010, the branch at Tin Tsz Estate in Tin Shui Wai was relocated to Kingswood Ginza in the same district so as to provide a better service environment and a more convenient outlet for a larger population in that district. Apart from the headquarters in Central, the number of local branches stands at 51.

In recognition of the Bank’s commitment to community services, the Hong Kong Council of Social Service awarded the Bank with the "Caring Company" logo for the third year in a row.

Corporate Governance

We are aware of the importance that complying with the relevant statutory and regulatory requirements and maintaining good corporate governance standards are imperative to the effective and efficient operation of the Bank. We have, therefore, deployed considerable resources, as well as adopted and implemented relevant measures, to ensure that the relevant statutory and regulatory requirements with regard to such matters as anti-money laundering and counter-terrorist financing controls, not to mention the enhanced complaint handling procedures concerning investment products, are complied with and that a high standard of corporate governance practices is maintained.

Economic Outlook

In early 2009, the National Development and Reform Commission published the “Outline of the Plan for the Reform and Development of the Pearl River Delta” (“Outline”), which for the first time elevated Guangdong-Hong Kong cooperation to the level of national development. In April this year, the Hong Kong Government and the Guangdong Provincial Government entered into a “Framework Agreement on Hong Kong / Guangdong Cooperation” (“Framework Agreement”), which embodies the policy guidelines in the Outline. The Framework Agreement aims to create a new world-class economic zone, with Hong Kong taking the lead with its financial systems to be supported by financial resources and services in the Pearl River Delta cities. Specific financial initiatives include increasing the participants of pilot scheme for cross-border trade settlement in renminbi to include more regions, banks and industries and supporting the establishment of cross-boundary subsidiaries for financial institutions from Hong Kong and Guangdong. Major tasks in the coming years include exploring specific arrangements for the issuance of renminbi bonds in Hong Kong by Guangdong enterprises, advancing the pilot scheme for cross-border trade settlement in renminbi, and encouraging more Guangdong enterprises to list in Hong Kong.

In May this year, Supplement VII to the “Mainland and Hong Kong Closer Economic Partnership Arrangement” was signed. The two governments entered into agreement regarding 35 market liberalisation as well as trade and investment facilitation measures in 19 sectors. The banking sector of Hong Kong is again at the receiving end of benefits. A Hong Kong bank’s operating institution in mainland China can apply to conduct renminbi business if it has been operating for more than two years and profitable for one year before the application. Moreover, a Hong Kong bank that has maintained a representative office in mainland China for more than one year can apply to set up a wholly foreign-funded bank or a foreign bank branch. As such, we at the Bank are well-positioned to have our representative offices there upgraded at the opportune time to further harness our share of cross-border business.

In July this year, the People's Bank of China ("PBoC") and the Hong Kong Monetary Authority ("HKMA") signed a supplementary memorandum of cooperation on the expansion of the renminbi trade settlement scheme. The PBoC and Bank of China (Hong Kong) Limited, the renminbi clearing bank, also signed a revised "Settlement Agreement on the Clearing of Renminbi Businesses". Under the new arrangements, individuals and corporations can conduct renminbi transfers through the banks; HKMA allows the banks to open renminbi deposit accounts for all corporate clients while lifting the restriction on the maximum amount of exchange from Hong Kong dollar to renminbi by corporations; and the banks can also conduct interbank lending and exchange of renminbi. Apart from facilitating the development of more renminbi financial products, the new arrangements also encourage the growth of renminbi deposits in Hong Kong, thereby promoting the territory's development as renminbi businesses' offshore centre.

Recently, the economy of Hong Kong has shown marked improvement. Financial measures of the Central and the Hong Kong Governments are also conducive to the sustained development of the banking sector. The Bank will seize the moment to maximise return for its shareholders, while at the same time fulfilling its calling as a community bank by providing the public with enhanced services.

Sincere Acknowledgements

I, on behalf of your board, would like to express my heartfelt thanks to our many customers and shareholders for their trust and support, to all my fellow directors for their wise stewardship, and to the management and the staff for their commitment and dedication. We will continue to leverage on these much-cherished strengths to keep honing our reputation as a caring financial institution serving our community, while taking advantage of opportunities, both local and overseas, that crop up from time to time to sustain our long-term growth in the interest of our stakeholders.
