### STOCK CODES AND SHORT NAMES

The Stock Exchange of Hong Kong Limited's Stock Codes and Short Names in respect of the Bank's (1) shares, (2) subordinated notes due 2020, (3) undated non-cumulative subordinated additional tier 1 capital securities and (4) tier 2 subordinated notes due 2027 are (1) 01111 (CHONG HING BANK), (2) 04327 (CH BANK N2011), (3) 05804 (CH BANK UCS) and (4) 05249 (CH BANK N2707) respectively.

As the major shareholder of Chong Hing Bank, Yue Xiu Group is pleased with the Bank's gradual transformation in line with the five-year strategic plan launched in late 2016. The Bank's strategic direction has been redefined, contributing to significant improvement in business development, enhanced operating and management efficiency and gradual completion in advanced IT systems.

I am pleased to announce that, in the first half of 2017, Chong Hing Bank's core business lines and overall financial position remained strong, asset quality was sound, and profitability was enhanced. Operating profit before impairment allowances amounted to HK\$699 million, an improvement of 3.2% from the corresponding period in previous year. Profit attributable to equity owners of the Bank amounted to HK\$512 million, a decline of 13.5% from the corresponding period in 2016, and earnings per share was HK\$0.67. The Board has considered that it is prudent to preserve the Bank's capital to better satisfy the new requirements under "Basel III". Hence, the Board has declared the payment of the interim cash dividend of HK\$0.15 per share for the six months ended 30 June 2017. The dividend payout for the period as a percentage of the profit attributable to equity owners less distribution paid on the additional equity instruments will be 27.4% (2016: 20.8%).

The major financial ratios for the first half of 2017 are as follows:

- Return on shareholders' equity: 6.26% (annualised)
- Average liquidity maintenance ratio: 39.92%
- Total capital ratio: 15.78% as of 30 June 2017
- Tier 1 capital ratio: 13.94% as of 30 June 2017
- Loan to deposit ratio: 68.88% as of 30 June 2017

China is the world's second-largest economy. In 2017, the Central Government adheres to the principle of delivering growth while maintaining stability and drives economic growth through innovation and economic reforms. Under China's "13th Five-Year Plan", inter-connectivity between the financial markets in the Mainland and Hong Kong will be enhanced, and support will be given to Hong Kong in developing itself into a global offshore Renminbi business hub and international assets management center. On 4 July 2017, the State Council approved the increase of Hong Kong's Renminbi Qualified Foreign Institutional Investors (RQFII) quota to RMB500 billion, thereby solidifying the role of Hong Kong as an important intermediary to facilitate overseas investors' participation in the bond and equity markets of the Mainland. These measures represent a new chapter of strengthening the inter-connectivity between the capital markets in the Mainland and Hong Kong following in the footsteps of the "Shanghai-Hong Kong Stock Connect", the "Mainland-Hong Kong Mutual Recognition of Funds" and the "Shenzhen-Hong Kong Stock Connect".

## CHAIRMAN'S STATEMENT

---

The Framework Agreement on Deepening Guangdong-Hong Kong-Macao Cooperation in the Development of the Bay Area came into effect on 1 July 2017. The agreement complements the Belt and Road Initiative and serves to strengthen the financial cooperation among the three places. Hong Kong is positioned to play a key role in bridging the Chinese and foreign economies. The agreement is expected to bring long-term benefits to the financial service industry in Hong Kong. Chong Hing Bank has been actively developing business in the Pearl River Delta since 2014 and has established a network comprising 3 branches and 4 sub-branches. In 2016, the Bank opened a branch in Guangzhou, the home base of the Yue Xiu Group. The Guangzhou Branch now oversees the operation of all the branches in the Mainland. Chong Hing Bank is poised to ride on its collaborative efforts in Guangdong and Hong Kong, pursue cross-border business opportunities, enhance overall financial service capabilities and establish itself as an “integrated commercial bank with cross-border expertise”.

In the World Competitiveness Yearbook 2017 published by the International Institute for Management Development in Lausanne, Switzerland, Hong Kong was ranked as the world's most competitive economy for two consecutive years, followed by Switzerland, Singapore and the United States. The assessment is based on four competitiveness factors, namely economic performance, government efficiency, business efficiency and infrastructure. Although Hong Kong's international competitive edge is beyond doubt, Hong Kong also faces a number of challenges: an intensely competitive business environment, a financial landscape that is highly exposed to external forces, great demand and high prices for housing, and lacking new economic growth drivers.

Chong Hing Bank will have the continued support from Yue Xiu Group for its further development. The Bank will leverage Hong Kong's unique role as the “super-connector” in future, and adopt a prudent yet active approach to coping with the business environment where both opportunities and challenges exist.

Lastly, I would like to express my gratitude to all the Directors for their valuable guidance and opinions leading to the achievement of the Bank's sustainable growth, and would like to thank the management team and all our staff members for their efforts and contributions under the ever-changing environment. On behalf of the Board, I wish to convey my sincere appreciation to our shareholders, customers and business partners for their support and trust.

**Zhang Zhaoxing**

### GLOBAL ECONOMY

In the first half of 2017, there was increasing growth in global economic activities and continued recovery of major economies. The US and Eurozone GDP in the second quarter recorded a year-on-year increase of 2.6% and 2.1% respectively, higher than the 1.2% and 1.9% recorded in the first quarter, and the upward trend is expected to continue for the second half of the year. However, the global economy is faced with new uncertainties arising from monetary policy normalisation by the US and European banks, Brexit and geopolitical conflicts.

As a major driving force for global economic growth, China's economy showed stable growth momentum in 2017. By fine-tuning the economic structure through reform and innovation, China achieved an economic growth of 6.9% in the first half of 2017. Core cities in the Pearl River Delta achieved remarkable performance with GDP growth of 7.9% in Guangzhou and of 8.8% in Shenzhen in the first half of the year, which were higher than the national average. The People's Bank of China will implement a stable and neutral monetary policy, thereby gradually tightening the monetary environment. Regulatory authorities have been strengthening risk monitoring, implementing financial deleveraging and guiding the financial sector to serve the real economy. Renminbi has remained steady against the US dollar, with the Renminbi onshore price (CNY) and offshore price (CNH) appreciating by 2.5% and 2.67% respectively in the first half of 2017.

Benefiting from the improving external environment, Hong Kong's economic growth demonstrated better momentum, with rapid revival of imports and exports, steady growth of consumption demands and significant increase of business investments. In the first half of 2017, local GDP grew by 4% in real terms as compared with the same period last year. Hong Kong's services exports, goods exports and total investment in the first quarter increased by 2.6%, 9.2% and 6.4% year-on-year respectively. Under the easing monetary environment, total money supply (M3) at the end of June 2017 increased by 13% as compared with the same period last year. With the rising credit demand in the market, total loans and advances from authorised institutions in late June 2017 achieved a 14.9% year-on-year growth. Despite the various control measures for the property market introduced in recent years, property prices continued to rise over the past five years. The private domestic housing price index has been rising for 15 consecutive months and reaching record highs for 8 consecutive months in June. In the first half of 2017, the number of registered first-hand residential property purchases in Hong Kong exceeded 10,000 and broke the record. As to the Hong Kong stock market, the Hang Seng Index has risen for 6 consecutive months and ended the first half of 2017 at 25,764 points, with an accumulated increase of 17% for the period.

## CHIEF EXECUTIVE'S STATEMENT

1. Return on shareholders' equity took into consideration the coupon of the additional equity instruments relevant for the period.
2. Earnings per share was calculated after deducting the distribution paid on the additional equity instruments in the period.
3. pp means percentage point.

### ANALYSIS OF KEY FINANCIAL DATA

For the first half of 2017, on an unaudited and consolidated basis, the profit attributable to equity owners of the Bank amounted to HK\$512 million, representing a decline of 13.5%, while the operating profit before impairment allowances amounted to HK\$699 million, representing an improvement of 3.2% as compared to the corresponding period in 2016. The decline of consolidated profit for the period was mainly attributable to (i) an increase in impairment allowances on loans and advances made during the first six months of 2017 of HK\$218 million mainly due to one credit relationship; and (ii) a translation loss of HK\$87 million resulting from the RMB appreciation in the first half of 2017.

Net interest income at HK\$1,114 million was 13.4% higher than the same period last year. The improvement in net interest income was achieved mainly through growth of loans and advances. Net interest margin ("NIM") at 1.54% was 9 basis points less than the corresponding period in previous year, and NIM for the second quarter was 1.58% and improved from 1.49% in the first quarter. The interest expenses increased due to rises in the market interest rates on deposits and financial assets sold under repurchase agreements. In addition, the interest expense on Panda bonds in the first half of 2017 was higher than the same period last year given the Bank issued its first batch of Panda bonds on 20 May 2016 with a coupon rate of 3.6% per annum.

Net fee and commission income improved by 17.8% to HK\$147 million, which was mainly attributable to a 19% increase in commission income arising from securities dealings as the stock market turnover was much higher than the same period last year. The increase was partially offset by a drop in commission income from the sale of life insurance products.

Foreign exchange and other treasury customer activities reported steady growth. Net (loss) income from trading and investment recorded a loss of HK\$26 million, which was mainly due to the RMB appreciation in the first half of 2017 resulting in a translation loss of HK\$87 million. The increase in net gains on disposal of the available-for-sale debt securities partly offset the translation loss.

Costs were prudently managed. The Bank strived for efficiency gains and at the same time invested in talents and systems to support business growth and expansion into the Mainland.

Similar to the corresponding period in 2016, certain assets that were not considered essential to the core business lines ("non-core assets") had been sold. As a result, net gains on disposal of properties as well as net gains on disposal of and fair value adjustments on investment properties totalling HK\$87 million were recorded as at June 2017. These net gains were HK\$50 million higher than the total gain of HK\$37 million from the disposal of and fair value adjustments on non-core assets recorded for the same period in 2016.

## CHIEF EXECUTIVE'S STATEMENT

As of 30 June 2017, total loans and advances to customers increased by 9.5% to HK\$77.4 billion when compared to the position as of 31 December 2016, with noticeable growth in term loans and syndication loans. With careful management on the exposure to credit risk, asset quality of loans and advances continued to be good with impaired loan ratio at 0.52%, non-performing loan ratio at 0.72% and provision coverage of impaired loans and advances at 142%.

Total customer deposits as of 30 June 2017 increased by 7.9% to HK\$111 billion when compared to the position as of 31 December 2016. The Bank continued to maintain a stable deposit base, allowing the Bank to balance loan growth as well as wealth management and cross-border financial business needs.

Total assets for the period increased by 7.3% to HK\$147.8 billion. As of 30 June 2017, 85% of the Bank's assets was based in Hong Kong.

As a result of proactive management of assets and liabilities, the Bank raised the level of loan to deposit ratio from 67.40% in December 2016 to 68.88% in June 2017, while keeping a prudent level of liquidity maintenance ratio with an average of 39.92% in the first half of 2017.

Total capital ratio decreased from 16.32% in December 2016 to 15.78% in June 2017, the Tier 1 capital ratio was at 13.94% and the Common Equity Tier 1 capital ratio was at 11.70%.

Overall, the Bank's core business lines, financial position and asset quality are strong, while impaired loan ratio remains low with high provision coverage. Capital adequacy ratio and liquidity maintenance ratio are above the relevant statutory requirements.

### INTERIM DIVIDEND

The Board has considered that it is prudent to preserve the Bank's capital so as to better satisfy the new requirements under "Basel III". As such, the Board has declared an interim cash dividend for 2017 of HK\$0.15 per share, payable on Monday, 25 September 2017 to shareholders whose names appear on the register of members of the Bank on Monday, 18 September 2017 (2016 interim cash dividend: HK\$0.15 per share paid on 21 September 2016).

### ISSUANCE OF TIER 2 SUBORDINATED NOTES

To raise funds for Basel III-compliant Tier 2 capital, the Bank settled and closed a US\$382,903,000 Tier 2 Subordinated Notes (the "New Notes") offering on 26 July 2017. The New Notes are 10-year non-call 5-year fixed rate notes, with a fixed coupon rate of 3.876% per annum, payable semi-annually for the first five years; the interest rate will be reset on 26 July 2022.

The aggregate principal amount of the New Notes is US\$382,903,000. This includes US\$22,903,000 of "New Exchange Notes" (being the New Notes issued pursuant to the exchange offer by the Bank to the holders of its US\$225 million 6.000% Subordinated Notes due 2020) and US\$360 million of "New Money Notes". The Bank achieved a final deal size of over US\$380 million. This is the largest ever international bond offering transaction by the Bank and is also the first Basel III-compliant transaction by the Bank. In line with the Bank's prudent and stable development approach, the proceeds from the offering will be used to strengthen the Bank's capital base and fund the growth of its operations and development. The New Notes have been listed on the Stock Exchange of Hong Kong under Stock Code of 05249 on 27 July 2017.

## BUSINESS REVIEW

### Corporate Banking

Chong Hing Bank is committed to providing one-stop banking products and highly professional services for our corporate customers in Hong Kong and the Mainland, as well as growing together with our customers and creating value for them. The Bank has been expanding its efforts to grow its Chinese corporate customer base, optimising the customer structure and building competitive advantage by differentiation. The Bank has strengthened its customer resources management, established a hierarchical management system, organised dedicated product teams and developed specialty product portfolios. Apart from promoting the cross-selling of financial market and wealth management products to improve revenue structure, the Bank also supports the development of local small- and medium-sized enterprises (SME). Following the previous participation in the Hong Kong Special Administrative Region (SAR) Government's "SME Loan Guarantee Scheme", the Bank fully supports Hong Kong Mortgage Corporation Limited's "SME Financing Guarantee Scheme".

In recent years, the Bank has successfully established its own brand on syndication loans in the region, and recorded a decent performance at the initial development stage. The Bank completed 20 syndicated loans in the first half of 2017 and acted as the lead arranger for 3 of them. It is a new record for the Bank's syndicated loan business, and the Bank will continue to solidify its brand in the region going forward. Besides, the Bank will tap into the loan asset trading business through secondary market so as to further enhance loan asset quality and improve returns.

In the first half of 2017, the Bank recorded steady growth in total corporate loans, while non-interest income continued to improve as compared with the same period last year.

### Personal Banking

The Bank provides customers with various personal financial management services, including deposits, mortgage loans, consumer finance, wealth management and private banking, etc. While vigorously maintaining the existing customer base, our personal banking team also continues to expand our customer base in financial management, develops products and improves services platform, as well as expands our local and cross-border businesses through different promotional activities so as to diversify the Bank's revenue sources.

Personal banking business showed steady growth in the first half of 2017:

- Total deposits of personal customers registered stable growth, providing a steady source of funds for the Bank to develop its businesses.
- Against the backdrop of the gradual recovery of the property market, stable loan growth was recorded for the personal banking business without compromising loan quality, while the delinquency rate on loans remained at a healthy level.
- Commission income remained at a strong double-digit growth for the investment products business. In order to strengthen our wealth management services and improve customer experience, the Bank has launched a number of new services, including the "Online Fund Search" tool and the enhanced foreign currency trading functions for our customers, in an effort to cater to the financing needs of local and cross-border customers.

## CHIEF EXECUTIVE'S STATEMENT

- In respect of the credit card business, despite the adverse impact on local retailers' business due to the continued decline in Mainland visitors, the Bank managed to achieve slight growth in its Visa, MasterCard and UnionPay Card merchant-acquiring amounts. The Bank also successfully launched various customer rewards programmes and market promotions. Accordingly, the credit card business was able to maintain the same performance level as for the corresponding period in 2016.

The Bank will continue to expand its business platforms, develop more convenient service channels and introduce more diversified products to meet customers' needs. It will also develop financial businesses with a focus on high-value cross-border customers in Guangdong and Hong Kong to ensure long-term stable growth for the Bank.

### Financial Markets Business

The Bank is committed to developing its financial markets business and has made significant progress in its treasury business, product development and customer business.

With regard to the treasury business, the Bank optimised the balance sheet by effectively utilising various financial instruments while complying with the established risk appetite, risk limits and liquidity requirements. At the same time, the Bank adjusted its investment strategies to enhance its asset quality.

Over the past two years, the Bank has progressively established a product and marketing team comprised of professionals with financial markets experience. The Bank has also been actively enriching its financial products and offering advice and services suiting the financial needs of different corporate and personal customers, thereby increasing our market share and intermediate business income.

After recording significant growth over the past two years, the Bank's financial markets business has entered into a momentum of steady growth in 2017.

### Mainland Operations

#### *Business Development*

The Bank has directed its main strategies towards the Mainland business and endeavored to enhance its capability in cross-border integrated financial services by capitalising on the Closer Economic Partnership Arrangement (CEPA), the regional financial cooperation between Guangdong and Hong Kong, the Free Trade Zone policy in the Mainland and the connections of the Bank's major shareholder.

The Mainland branches and sub-branches continue to demonstrate emerging potential, with generally positive operating performances, a steadily growing deposit size (backed by the government's public finance deposits in particular), and moderate loan growth. The Bank seizes business opportunities to proactively develop financial and interbank businesses in the Mainland and has recorded rapid growth in overall profit with an increasing number of customers. Both the Guangzhou and Shenzhen Branches have recognised profits within one year of operation.

### **Infrastructure**

In accordance with the requirements of the regulatory bodies in the Mainland and Hong Kong, the Mainland branches and sub-branches have kept enhancing organisational structure, systematically managing policies and procedures, improving internal control and management systems, optimising comprehensive risk management system and strengthening the support of information technology.

The new Core Banking System and General Ledger System for the Mainland business started operation on 8 January 2017. The successful launch of the systems represents our effort to enhance the Bank's financial infrastructure in the Mainland. The systems give strong support to business developments and serve as a strong backing for the set up of the Guangdong-Hong Kong cross-border business system and the development of Free Trade Zone business. This is also an important step towards the Bank's vision of becoming an "integrated commercial bank with cross-border expertise".

### **Business Qualifications**

For the first half of 2017, the Bank's Mainland branches obtained a number of business qualifications, laying a solid foundation for future business development. Shenzhen Branch has been qualified to participate in the National Interbank Bond Market. Guangzhou Branch obtained the qualification granted by the People's Bank of China as the Guangzhou agency bank for the centralised treasury receipt and payment business from 2017 to 2019, and obtained the qualification as a municipal agency bank for the authorised fiscal payment business from 2017 to 2019 approved by the Bureau of Finance of Guangzhou Municipality.

Following the "Hong Kong Pass" Commercial Service launched by the government of the Nansha Free Trade Zone and the Bank in 2016, Hengqin New Area of Zhuhai and the Bank jointly introduced the "Hong Kong and Macau Pass" Commercial Service in May 2017, providing the commercial registration agency service through the Bank's service network in Hong Kong and Macau to those investors who are interested in setting up companies in the Hengqin Free Trade Zone.

The Bank will continue to build the cross-border services platform and take advantage of the growing cross-border financing opportunities, with the goal of establishing itself as an integrated commercial bank with cross-border expertise.

### **Chong Hing Securities Limited**

In the first half of 2017, the global financial market remained volatile, and the pace of US interest rate hikes was expected to remain slow. China's economy achieved a growth rate of 6.9% for the first half of 2017, with Renminbi exchange rate starting to stabilise. The Hong Kong stock market experienced moderate consolidation in the second quarter, with an increasingly bullish sentiment. The overall turnover of Chong Hing Securities in the first half of the year was 38.4% higher than the same period last year, significantly outperforming the 12.6% year-on-year growth in trading volume of the Hong Kong stock market.

## CHIEF EXECUTIVE'S STATEMENT

### Chong Hing Insurance Company Limited

Notwithstanding the intense competition in the insurance industry in Hong Kong with a decrease in overall underwriting profit in the first half of 2017, Chong Hing Insurance, a wholly-owned subsidiary of the Bank, still managed to deliver promising results during the period, with an increase in profit before tax as compared with the corresponding period in 2016. For the second half of the year, Chong Hing Insurance will establish an online sales channel to attract customers of the younger generation and enhance synergy with the Bank through the bancassurance model in order to develop various businesses and capitalise on the Bank's strong business network for pursuing new business opportunities and enhancing performance.

### Future Development

With the new capital in place, the Bank looks to welcoming new opportunities for development. In the second half of the year, not only will the Bank steadily develop customer relationship, it will also further strengthen its internal management, enhance service efficiency, improve customer experience, and sharpen professional service capabilities.

The Bank will optimise the use of its capital resources, human resources and information technology resources. We will actively centralise backend operations and processing, implement internal fund transfer pricing, improve the utilisation efficiency of resources, expedite the set up of process bank and improve operational efficiency. The Bank will also strengthen the four major product lines, namely financial markets, structured finance, trade finance and digital banking, and enhance the linkage between the branches and sub-branches in the Mainland and the Head Office in Hong Kong in order to establish a new cross-border business model. We will deepen our customer relationship to bring forth new customers, as well as enhance the risk management structure and the establishment of professional teams for strengthening professional risk control capabilities. Chong Hing Bank endeavours to unify and create corporate value under its corporate culture as cultivated.

## CORPORATE RESPONSIBILITY

As an enterprise that bears the community at heart, the Bank supports charity events held by charity organisations and art events held by community groups through active participation in volunteer activities, charitable donation and financing of the events.

In addition, the Bank strives to give back to the society and protect the environment in various ways, and our efforts have been recognised by people from all walks of life:

- Leveraging its branch network, the Bank assisted Tung Wah Group of Hospitals in selling raffle tickets to raise funds and achieved great success. In 2017, the Bank was awarded Runner-Up in the commercial and industrial institutes and groups category in the charity raffle tickets selling competition and received the "Raffle Tickets Selling Award".
- The Bank realised its promise to turn off external lights at a preset time in response to the "Charter on External Lighting" by the Environment Bureau of the Hong Kong SAR Government. Many branches complied with the lighting requirements, and the Bank was awarded the "Platinum Award".

In 2017, the Bank was named a “Caring Company” by the Hong Kong Council of Social Service for the tenth consecutive year, and was particularly named a “10 Years Plus Caring Company”. It is a recognition that the Bank did its utmost to discharge its social responsibility and benefit the society through various community and environmental protection programmes.

### CORPORATE GOVERNANCE

The Bank fully appreciates that compliance with the relevant statutory and regulatory requirements and maintaining good corporate governance standards are imperative to the sustainability of the Bank. The Bank has implemented all relevant measures to ensure that the statutory and regulatory requirements are fully complied with and that a high standard of corporate governance is maintained.

### AWARDS

The Bank always aims to offer quality banking services to its customers. During the year of 2017, it continued to achieve excellent results in different fields and received awards from different organisations.

The Bank is working with SMEs with the goal of achieving mutual growth while providing them with diversified banking services. This support has been widely recognised by the industry and in June, the Bank received the “Best SME’s Partner Award” by the Hong Kong General Chamber of Small and Medium Business for the ninth time.

The Bank received the “Straight Through Processing (STP) Award” from the Bank of New York Mellon for the ninth consecutive year. This award recognised the Bank’s outstanding performance in payment formatting and high STP rate of over 95% in fully-automated US dollar payment processing without manual intervention.

### OUTLOOK

As a pivotal hub and an important pillar in China’s “Belt and Road” strategy as well as a core city in the “Guangdong-Hong Kong-Macau Bay Area”, Hong Kong will be faced with historic opportunities for development. Hong Kong will take full advantage of its unique position as an international financial centre, trade centre and logistics centre for taking part in China’s overall strategic planning from such perspectives as project finance, cross-border mergers, asset management, risk management, legal advisory and tax planning. With the new growth momentum gained therein, Hong Kong’s economy will move towards a higher level and standard. Riding on China’s strategic framework, the network of core cities in the Bay Area, the Bank’s professional cross-border financial service, the regional resources of the Bank’s major shareholder, as well as the accelerated integration of economy, trade, capital and talent between the Mainland and Hong Kong, the Bank will explore business opportunities, expand the customer base, and establish a financial service brand connecting both individuals and corporates in Guangdong and Hong Kong, thereby ultimately achieving the goal of becoming an “integrated commercial bank with cross-border expertise”.

## CHIEF EXECUTIVE'S STATEMENT

---

### APPRECIATION

It is my honour to be appointed as the Chief Executive of Chong Hing Bank on 19 April 2017. I would like to thank all Directors on the Board for their trust and support. I am entrusted with the important responsibility for leading the steady growth of Chong Hing Bank, which will enter a new chapter of development. I would also like to express my heartfelt thanks to all staff members for their contribution to the Bank's business development. Last but not least, I would like to thank our shareholders, customers and business partners for their ongoing support and trust.

### COMPLIANCE WITH CORPORATE GOVERNANCE CODE

The Bank is an authorised institution supervised by the Hong Kong Monetary Authority (the “HKMA”) under the Hong Kong Banking Ordinance. The Bank is committed to maintaining high standards of corporate governance, with a view to safeguarding the interests of shareholders, customers, employees and other stakeholders. The Bank has applied the principles in the Corporate Governance Code (the “Code”) set out in Appendix 14 to the Listing Rules and the module on “Corporate Governance of Locally Incorporated Authorised Institutions” under the Supervisory Policy Manual issued by the HKMA to its corporate governance structure and practices.

Pursuant to the Code, listed issuer must give considered reasons in its interim report for each deviation from any of the code provisions contained in the Code.

Throughout the six months ended 30 June 2017, the Bank complied with all the applicable code provisions set out in the Code, except for deviations from the following code provisions:

1. Code Provision A.4.1 provides that non-executive directors should be appointed for a specific term, subject to re-election. None of the Non-executive Directors of the Bank was appointed for a specific term; however, all of them are subject to retirement by rotation and re-election at the annual general meeting of the Bank in accordance with the Bank’s Articles of Association.
2. Rule 3.25 of the Listing Rules and Code Provision A.5.1 of the Code provide that the remuneration committee and the nomination committee should comprise a majority of independent non-executive directors. Following the passing away of Mr Chiranakhorn Wanchai, the then Independent Non-executive Director of the Bank, on 23 January 2017, only half of the members of both the Remuneration Committee and the Nomination Committee of the Bank were Independent Non-executive Directors. The Board conducted a holistic review and put in place the new composition of the Remuneration Committee and the Nomination Committee with effect from 16 February 2017 in order to comply with the respective requirements under Rule 3.25 of the Listing Rules and Code Provision A.5.1 of the Code.

### COMPLIANCE WITH MODEL CODE

The Bank has adopted its own code for securities transactions by Directors on terms no less exacting than those set out in the Model Code. All the Directors confirmed, following specific enquiry by the Bank, that they have complied with the required standards set out in the Model Code and the Bank’s own code for securities transactions by Directors throughout the six months ended 30 June 2017.

## TO THE BOARD OF DIRECTORS OF CHONG HING BANK LIMITED

*(incorporated in Hong Kong with limited liability)*

### INTRODUCTION

We have reviewed the interim financial information set out on pages 25 to 71, which comprises the condensed consolidated statement of financial position of Chong Hing Bank Limited (the “Bank”) and its subsidiaries (together, the “Group”) as at 30 June 2017 and the related condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Bank are responsible for the preparation and fair presentation of these interim financial information in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on these interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

### SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”.

# NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

*For the six months ended 30 June 2017*

## 1. GENERAL INFORMATION

Chong Hing Bank Limited (the “Bank”) is a public limited company incorporated in Hong Kong and its shares are listed on The Stock Exchange of Hong Kong Limited.

The Bank is engaged in the provision of banking and related financial services. The address of the registered office of the Bank is Ground Floor, Chong Hing Bank Centre, 24 Des Voeux Road Central, Hong Kong.

The condensed consolidated interim financial information is presented in Hong Kong dollars, which is the same as the functional currency of the Bank.

The financial information relating to the year ended 31 December 2016 that is included in the condensed consolidated interim financial information for the six months ended 30 June 2017 as comparative information does not constitute the Bank’s statutory annual consolidated financial statements for that year but is derived from those financial statements. Further information relating to these statutory financial statements required to be disclosed in accordance with section 436 of the Hong Kong Companies Ordinance (Cap. 622) is as follows:

The Bank has delivered the financial statements for the year ended 31 December 2016 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Hong Kong Companies Ordinance (Cap. 622).

The Bank’s auditor has reported on those financial statements. The auditor’s report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report, and did not contain a statement under sections 406(2), 407(2) or (3) of the Hong Kong Companies Ordinance (Cap. 622).

## 2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

This condensed consolidated interim financial information for the six months ended 30 June 2017 has been prepared in accordance with HKAS 34 “Interim financial reporting”. The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2016, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”).

## 2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (continued)

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2016, as described in those annual financial statements, except for the adoption of amendments to Hong Kong Financial Reporting Standards ("HKFRSs") effective for the financial year ending 31 December 2017.

- (a) Amendments to HKFRSs effective for the financial year ending 31 December 2017 do not have a material impact on the Group except for amendments to HKAS 12 'Income taxes' and HKAS 7 'Statement of cash flows'. The impact of these two amendments are summarised as below:
- The amendments to HKAS 12 on the recognition of deferred tax assets for unrealised losses clarifies how to account for deferred tax assets related to debt instruments measured at fair value.
  - The amendments to HKAS 7 clarifies introduced an additional disclosure that will enable users of financial statements to evaluate changes in liabilities arising from financing activities.

The Group considers the abovementioned amendments do not have a significant effect on the results for the current interim period.

Other amendments to HKFRSs effective on 1 January 2017 do not have a material impact on the Group for the current interim period.

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

There are no other amended standards or interpretations that are effective for the first time for this interim period that could be expected to have a material impact on this Group.

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 January 2017, and have not been applied in preparing these condensed consolidated interim financial information. None of these is expected to have a significant effect on the consolidated financial statements of the Group, except the following set out below:

## 2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (continued)

### HKFRS 9 Financial instruments

HKFRS 9 replaces the existing guidance in HKAS 39 Financial Instruments: Recognition and Measurement, which introduces new requirements for the classification and measurement of financial instruments; new expected credit loss model for impairment of financial assets as well as new rules for hedge accounting. The Group is continuing its assessment and preparation of the classification and measurement of financial assets and liabilities under HKFRS 9. The implementation of expected credit loss model continues to progress with the build and testing of impairment calculation nearing completion. For hedge accounting, the Group does not expect a significant impact on the accounting for its hedging relationships. The standard is effective for annual reporting periods beginning on or after 1 January 2018. The Group plans to adopt the standard when it becomes effective in 2018.

### HKFRS 15 Revenue from contracts with customer

The standard will replace HKAS 18 Revenue which covers revenue arising from the sale of goods and the rendering of services. The new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer. The new standard is effective for annual reporting periods beginning on or after 1 January 2018. Management is currently assessing the effects of applying the new standard on the Group's financial statements, which the management expects to complete in the coming months. At this stage, the Group does not expect to adopt the new standard before 1 January 2018.

### HKFRS 16 Leases

The standard will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases. The accounting for lessors will not significantly change. The standard is effective for annual reporting periods beginning on or after 1 January 2019. The work to assess the impact of the standard is ongoing and the Group does not intend to adopt the standard before its effective date.

## 3. SEGMENT INFORMATION

The Group's operating segments, which are also the reportable segments, based on information regularly reviewed by the chief operating decision maker (Executive Committee of the Group) for the purposes of allocating resources to segments and assessing their performance on business divisions of the Group, are as follows:

1. Corporate and personal banking
2. Financial markets activities
3. Securities business
4. Others comprising investment holding, insurance, other investment advisory services and property investments.

No operating segments identified by the chief operating decision maker have been aggregated in arriving at the reportable segments of the Group.

## 3. SEGMENT INFORMATION (continued)

### Other information (continued)

All direct costs incurred by different segments are grouped under respective segments. Indirect costs and support functions' costs are allocated to various segments and products based on effort and time spent while segments' other operating income is allocated depending on the nature of costs incurred. Indirect costs and support functions' costs and income related to corporate activities that cannot be reasonably allocated to segments or products are grouped as unallocated corporate expenses and unallocated corporate income respectively. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of performance.

There is no operating income with a single external customer amounting to or exceeding 10% of the Group's and the Bank's total operating income.

Assets and liabilities related to corporate activities that cannot be reasonably allocated to segments, products and support functions are grouped as unallocated corporate assets and liabilities. All direct segment assets and liabilities are grouped under respective segments.

### Geographical information

Geographical information (including geographical analysis of total segment revenue) is analysed by the Group based on the locations of the principal operations of the branches and subsidiaries which are responsible for reporting the results or booking the assets. Non-current assets presented below are based on the location of the entities' country of domicile which is the same as the location of the non-current assets.

## 4. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

### 4.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The condensed consolidated interim financial information do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2016.

There have been no changes in the risk management policies since year end.

**4. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS** (continued)

**4.2 Fair value estimation**

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's financial assets and liabilities that are measured at fair value as at 30 June 2017.

**4.3 Valuation techniques**

The fair value of listed securities is determined with reference to quoted market bid prices from relevant stock exchanges.

The fair values of debt securities classified as available-for-sale securities, certificates of deposit and other debt securities classified as held-to-maturity securities and loan capital are determined based on indicative prices provided by the dealers and brokers. In addition, the Group makes comparison of the indicative prices with the prices obtained from pricing service providers and other service providers and with the values calculated using valuation models such as discounted cash flows method to substantiate the indicative prices of the debt securities. The key inputs used in the valuation models are the interest rate data, which are observable at the end of the reporting period. The objective of valuation models is to arrive at a fair value estimation that reflects the price of the financial instrument at the reporting date, which would have been determined by market participants acting at arm's length.

The fair value of foreign currency forward contracts is measured by comparing the contracted forward rates and the quoted forward exchange rates, which are observable at the end of the reporting period.

The fair value of interest rate swaps and cross-currency interest rate swaps are measured by the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates, which are observable at the end of the reporting period.

There were no changes in the Group's valuation techniques during the period.

The majority of the Group's investments are valued based on quoted market information or observable market data. A small percentage, less than 0.01% (31 December 2016: less than 0.01%), assets recorded at fair value, are based on estimates and recorded as Level 3 investments. Whilst such valuations are sensitive to estimates, it is believed that changing one or more of the assumptions to reasonably possible alternative assumptions would not have a material impact on the Group's financial positions.

## 5. OFFSETTING FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The Group has financial assets and financial liabilities that:

- are offset in the Group's condensed consolidated statement of financial position; or
- are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments, irrespective of whether they are offset in the condensed consolidated statement of financial position.

The Group entered into International Swaps and Derivatives Association ("ISDA") Master Agreements and Global Master Repurchase Agreements ("GMRA") for derivatives and sale and repurchase agreements. In addition, the Group receives and pledges collateral in the form of cash in respect of its derivative transactions and sale and repurchase agreements. Such collateral is subject to the standard industry terms of ISDA Credit Support Annex or GMRA. Collateral received or pledged must be returned on maturity of the transactions.

Under the Continuous Net Settlement, money obligations receivable and payable with the Hong Kong Securities Clearing Company Limited on the same settlement date are settled on a net basis.

“Net (loss) income from trading and investments – foreign exchange” includes gains and losses from spot and forward contracts, swaps and translated foreign currency assets and liabilities, which are not designated as qualifying hedging relationship.

The Group entered into foreign exchange swaps for its liquidity management and funding activities. It involves swapping a currency (“original currency”) into another currency (“swap currency”) at the spot exchange rate for short-term placement and simultaneously entering into a forward contract to convert the funds back to the original currency on maturity of the placement. The exchange difference between the spot and forward contracts is recognised as a gain or loss in “net (loss) income from trading and investments – foreign exchange”, while the corresponding interest differential between the surplus funds in the original currency and swap currency is reflected in net interest income.

## 8. NET (LOSS) INCOME FROM TRADING AND INVESTMENTS (continued)

“Net (loss) income from trading and investments – foreign exchange” also includes certain translation gains and losses reported in accordance with Hong Kong Accounting Standard 21 “The Effects of Changes in Foreign Exchange Rates” in relation to the Group’s Mainland Operation. There were translation losses of approximately HK\$25 million arising from translation of non-Renminbi net monetary assets maintained in the Mainland branches and there were translation losses of approximately HK\$62 million arising from the translation of Renminbi net monetary liabilities at Head Office level in relation to the working capital provided to the Mainland branches. These translation losses from monetary items had been reported as “net (loss) income from trading and investments – foreign exchange” whereas the corresponding translation gains from the consolidation of the Mainland branches had been reported as part of exchange differences arising on translation under other comprehensive income.

Net gains on disposal of the available-for-sale securities were included in the net (loss) income from trading and investments of the Group which form part of the business operation. This is in line with the current business model of the Group. Comparative figures have been reclassified to ensure information is provided on a basis consistent with the current period’s presentation.

## 11. IMPAIRMENT ASSESSMENT ON GOODWILL

For the six-month period ended 30 June 2017, the management has reviewed goodwill for impairment testing purposes. The review comprised a comparison of the carrying amount and the value in use of an acquired subsidiary (the smallest cash-generating unit) to which the goodwill has been allocated. The acquired subsidiary is involved in insurance business.

The value in use calculations primarily use cash flow projections based on the five-year financial budgets approved by the management of the subsidiary and estimated terminal value at the end of the five-year period. There are a number of assumptions and estimates involved for the preparation of cash flow projections for the period covered by the approved budget and estimated terminal value. Key assumptions include the expected growth in revenues (growth rate at 4% to 10%) (2016: growth rate at 5%), long term growth rate (3%) (2016: 3%) and selection of discount rate (12%) (2016: 12%).

Value in use is derived by discounting the expected future cash flows.

The management of the Group determines that there is no impairment loss on the goodwill for the six-month periods ended 30 June 2017 and 30 June 2016.

## 12. TAXATION

Hong Kong Profits Tax is calculated at 16.5% (2016: 16.5%) of the estimated assessable profit for the period.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

## 13. EARNINGS PER SHARE – BASIC AND DILUTED

The calculation of basic earnings per share is based on the profit attributable to equity owners of the Bank of HK\$511,887,000 (2016: HK\$591,973,000) with deduction of distribution payment for additional equity instruments of HK\$75,676,000 (2016: HK\$75,795,000) and on 652,500,000 (2016: 652,500,000) ordinary shares in issue.

There were no potential dilutive instrument in issue during both periods.

## 14. DIVIDENDS

On 5 June 2017, a dividend of HK\$0.39 per share totalling HK\$254,475,000 was paid to shareholders as the final dividend for 2016.

On 1 June 2016, a dividend of HK\$0.37 per share totalling HK\$241,425,000 was paid to shareholders as the final dividend for 2015.

Subsequent to the end of the interim period, the Board has declared a total amount of interim dividend in respect of the financial year ending 31 December 2017 of HK\$97,875,000 (2016: HK\$97,875,000) at a rate of HK\$0.15 (2016: HK\$0.15) per share should be paid to the shareholders of the Bank whose names appear on the Register of Members on 18 September 2017.

### 18. TRANSFER OF FINANCIAL ASSETS

The following were the Group's debt securities classified as held-to-maturity and available-for-sale as at 30 June 2017 and 31 December 2016 that were transferred to an entity with terms to repurchase these debt securities at agreed dates and prices. As the Group has retained substantially all the risks and rewards relating to these debt securities, the full carrying amount of these debt securities continued to be recognised. The cash received on the transfer was reported as liabilities under "Financial assets sold under repurchase agreements" (see Note 25). The transferred debt securities serve as collateral to secure these liabilities. During the covered periods, the legal title of the debt securities are transferred to the counterparty entity and there is no restriction for the counterparty entity to sell or repledge the collateral. These debt securities are either measured at amortised cost or carried at fair value in the condensed consolidated statement of financial position.

## 19. ADVANCES AND OTHER ACCOUNTS (continued)

In accordance with HKAS 39, individual impairment allowances are assessed by a discounted cash flow method for loans and advances that are individually significant and have objective evidence of impairment. The increase in impairment allowances under individual allowances for the six months ended 30 June 2017 was mainly due to one corporate credit relationship, which is engaged in various business segments including food production based in Mainland China, and is undergoing debt restructuring. The exposure was partially provided for individual impairment allowances which represented the difference between the asset's carrying amount and the present value of estimated future cash flows.

In addition to the individually assessed loans impairment allowance, the Group has also provided collectively assessed loans impairment allowance for loans that are individually insignificant or advances where no impairment has been identified individually.

## 20. INTERESTS IN ASSOCIATES

On 20 March 2017, the Group entered into a Share Sale Agreement to sell the Group's stake in Hong Kong Life Insurance Limited (the "Disposal") for a consideration of approximately HK\$1,183,333,000. Under the Share Sale Agreement, the closing of the Disposal is subject to the satisfaction of certain conditions. As at 30 June 2017, the Group's interest in Hong Kong Life Insurance Limited is accounted for using the equity method as the Disposal was not completed.

### 21. INVESTMENT PROPERTIES (continued)

Investment properties owned by the Group were revalued at 30 June 2017 by adopting the direct comparison approach and with reference to the recent transactions for similar premises by Vigers Appraisal and Consulting Limited, independent professional qualified valuer. The fair value is mainly arrived at by reference to comparable market transactions for similar properties.

The fair value of investment properties is estimated based on assumptions that there would be no forced sale situation in any manner for these investment properties and the structure of these investment properties were in a reasonable condition at the end of the reporting period.

The investment properties are rented out under operating leases or are held for capital appreciation purposes.

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

One of the key inputs used in valuing the investment properties was the unit sale rate taking into account of time, location and individual factors such as size and levels of building, which ranged from HK\$3,050 to HK\$48,900 (2016: HK\$3,000 to HK\$47,900) per square feet. A decrease in the unit sale rate would result in decrease in fair value measurement of the investment properties by the same percentage decrease and vice versa.

Investment properties are classified as Level 3 under fair value hierarchy as at 30 June 2017 and 31 December 2016. There were no transfers into or out of Level 3 during the periods.

Notes:

- (a) This represented a subordinated note qualifying as tier 2 capital under Basel II accord with face value of US\$225,000,000 issued on 5 November 2010. The note will mature on 4 November 2020. If at any time on or after 1 January 2013, the note no longer fully qualifies as term subordinated debt for inclusion in Category II – Supplementary Capital of the Bank upon changes to regulatory requirements, the Bank may, at its option and subject to the prior written approval of the HKMA, exercise a change of the status of the note by serving the “Change in Status Notice” to the noteholders. Upon a “Change in Status Notice” becoming effective, the note shall thereafter constitute unsubordinated obligations and the rate of interest on the note shall be reduced from 6% per annum to 5.5% per annum. As “Change in Status Notice” has not been served, the rate of interest on the note remains at 6% per annum.
- (b) The subordinated note issued is not secured by any collateral.

On 25 September 2014, the Bank issued undated non-cumulative subordinated additional tier 1 capital securities (“Additional Tier 1 Capital Securities”) with a face value of US\$300 million (equivalent to HK\$2,312,030,000 net of related issuance costs). The Additional Tier 1 Capital Securities are undated and bear a 6.50% coupon until the first call date on 25 September 2019. The coupon will be reset every five years if the Additional Tier 1 Capital Securities are not redeemed to a fixed rate equivalent to the then-prevailing five-year US Treasury rate plus 4.628% per annum.

The coupon shall be payable semi-annually. The Bank has the right to cancel coupon payment (subject to the requirement as set out in the terms and conditions of the Additional Tier 1 Capital Securities) and the coupon cancelled shall not be cumulative. However, the Bank is stopped from declaring dividend to its ordinary shareholders unless the next scheduled coupon payment is paid.

The principal of the Additional Tier 1 Capital Securities will be written off up to the amount as directed or agreed with the HKMA if the HKMA notifies the Bank that in the opinion of the HKMA, the Bank would become non-viable if there is no written off of the principal.

The Bank has a call option to redeem all the outstanding capital securities from 25 September 2019 or any subsequent coupon payment date, but subject to restriction as set out in the terms and conditions.

During the period, a distribution payment of US\$9,750,000 (2016: US\$9,750,000) (equivalent to HK\$75,674,625) (2016: HK\$75,795,000) was paid to the securities holders.

The remuneration of directors, senior management and key personnel is reviewed by the Remuneration Committee having regard to the performance of individuals and market trends.

## 33. ESTIMATES

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2016.

## 34. EVENTS AFTER THE REPORTING PERIOD

To raise funds for Basel III-compliant Tier 2 capital, the Bank settled and closed a US\$382,903,000 Tier 2 Subordinated Notes (the "New Notes") offering on 26 July 2017. The New Notes are 10-year non-call 5-year fixed rate notes, with a fixed coupon rate of 3.876% per annum, payable semi-annually for the first five years; the interest rate will be reset on 26 July 2022.

The aggregate principal amount of the New Notes is US\$382,903,000. This includes US\$22,903,000 of "New Exchange Notes" (being the New Notes issued pursuant to the exchange offer by the Bank to the holders of its US\$225 million 6.000% Subordinated Notes due 2020) and US\$360 million of "New Money Notes". The Bank achieved a final deal size of over US\$380 million, the proceeds from the offering will be used to strengthen the Bank's capital base and fund the growth of its operations and development. The New Notes have been listed on the Stock Exchange of Hong Kong under Stock Code of 05249 on 27 July 2017.

## 35. COMPARATIVE AMOUNTS

Certain comparative figures have been reclassified to conform with the current period's presentation.

### 7. CONTINGENT LIABILITIES AND COMMITMENTS (continued)

Replacement cost is the cost which would be incurred by the Group if it was required to enter into another contract to replace the existing transaction or existing contract with another counterparty with substantially the same economic consequences for the Group and is calculated by marking-to-market the existing transaction or existing contract. If the resultant value is positive for the Group, the replacement cost shall be the resultant value of the existing transaction or existing contract. If the resultant value is negative for the Group, the replacement cost shall be zero. Replacement cost is a close approximation of the credit risk for these contracts at the end of the reporting period.

The credit risk-weighted amount is the amount which has been calculated in accordance with the Banking (Capital) Rules and the guidelines issued by the HKMA.

Capital adequacy ratios are compiled in accordance with the Banking (Capital) Rules under Hong Kong Banking Ordinance for the implementation of the “Basel III” capital accord, which became effective on 1 January 2013. In accordance with the Banking (Capital) Rules, the Bank has adopted the “standardised approach” for the calculation of the risk-weighted assets for credit risk, “standardised (market risk) approach” for the calculation of market risk and “basic indicator approach” for the calculation of operational risk. The capital adequacy ratio is consolidated, under the Banking (Capital) Rules, with reference to the financial information of the Bank, Chong Hing Finance Limited, Right Way Investments Limited, Gallbraith Limited, Chong Hing Information Technology Limited, Card Alliance Company Limited, Top Benefit Enterprise Limited and Hero Marker Limited.

Leverage ratio is disclosed in accordance with the Banking (Disclosure) Rules under Hong Kong Banking Ordinance. The leverage ratio is consolidated with reference to the financial information of the Bank, Chong Hing Finance Limited, Right Way Investments Limited, Gallbraith Limited, Chong Hing Information Technology Limited, Card Alliance Company Limited, Top Benefit Enterprise Limited and Hero Marker Limited.

Liquidity maintenance ratio (“LMR”) is compiled in accordance with the Banking (Liquidity) Rules under Hong Kong Banking Ordinance, which became effective on 1 January 2015. The LMR is calculated on an unconsolidated basis. The average liquidity maintenance ratio is calculated based on the arithmetic mean of the average value of the LMR of the Bank reported in the liquidity position return of the Bank for each month during the reporting period.

### 9. OTHER FINANCIAL INFORMATION

The Bank has set up a “Regulatory Disclosures” section on its website to house all of information relating to the disclosure of regulatory capital to comply with Banking (Disclosure) Rules. In accordance with section 24 of Banking (Disclosure) Rules, the “Regulatory Disclosures” section includes the following information:

- A detailed breakdown of the Common Equity Tier 1 capital, Additional Tier 1 capital, Tier 2 capital and regulatory deductions to the capital base by using the standard disclosure templates as specified by the HKMA;
- A full reconciliation of the Common Equity Tier 1 capital items, Additional Tier 1 capital items, Tier 2 capital items and regulatory deductions to the capital base and the balance sheet in the published financial statements;
- The full terms and conditions of all capital instruments;
- The disclosure on leverage ratio pursuant to section 24A of the Banking (Disclosure) Rules; and
- Geographical breakdown of risk-weighted assets in relation to private sector credit exposures and the applicable countercyclical capital buffer ratio for each jurisdiction using the standard template as specified by the HKMA.

The above information will be available on the Bank’s website: [www.chbank.com/en/regulatory-disclosures/index.shtml](http://www.chbank.com/en/regulatory-disclosures/index.shtml) in the “Regulatory Disclosures” section in accordance with the Banking (Disclosure) Rules.

### 10. BASIS OF CONSOLIDATION

This interim financial information covers the condensed consolidated financial information of the Bank and all its subsidiaries and includes the attributable share of interest in the Group’s associates.

The capital adequacy ratios of the Group are prepared according to the basis of consolidation determined by the HKMA for regulatory purposes. The main difference between the consolidation basis for accounting and regulatory purposes is that the former includes the Bank, all its subsidiaries and the attributable share of interests in the Group’s associates whereas the latter includes the Bank and only some of the Group’s subsidiaries which mainly conduct banking business or other businesses incidental to banking business. The LMR is prepared on an unconsolidated basis which includes the Bank only.

**10. BASIS OF CONSOLIDATION** (continued)

Subsidiaries that are included within the accounting scope of consolidation but are not included within the regulatory scope of consolidation are as follows:

**11. RISK MANAGEMENT**

The Group has established policies, procedures, and controls for measuring, monitoring and controlling risks arising from the banking and related financial services business. These policies, procedures, and controls are implemented by various committees, divisions and departments of the Group and are regularly reviewed by the Board. The internal auditors also play an important role in the risk management process by performing regular, as well as sporadic compliance audits.

The management of assets and liabilities of the Group is conducted under the guidance of the Asset and Liability Management Committee (the "ALCO"). The ALCO meets to review and direct the relevant policies, and to monitor the bank-wide positions. The day-to-day management of the liquidity, foreign exchange, interest rate and other market risks, and the compliance with the ALCO and the Risk Management Committee (the "RMC") policies are monitored by the Finance and Capital Management Division, the Market Risk Management Department and the Finance Department with the assistance of various qualitative and quantitative analyses.

## SUPPLEMENTARY INFORMATION

For the six months ended 30 June 2017

### 11. RISK MANAGEMENT (continued)

In addition to complementing the ALCO in the management of assets and liabilities, the RMC also oversees the implementation of the policies and procedures established for managing the Group's operational, legal, and reputation risks and compliance requirements.

#### (i) Capital management

The Group has adopted a policy of maintaining a strong capital base to support its business growth. The Group's capital adequacy ratio has remained well above the statutory minimum ratio of 8% for the past five financial years.

#### (ii) Credit risk

Credit risk is the risk that a customer or counterparty may fail to meet a commitment when it falls due.

The Group's lending policy sets out in details the credit approval and monitoring mechanism, the exposure classifications system and provisioning policy, which is established in accordance with the requirements and provisions of the Hong Kong Banking Ordinance, the guidelines issued by the HKMA and other regulatory bodies.

Day-to-day credit management is performed by the Credit Risk Management Division with reference to credit policy information, the creditworthiness of a counterparty, the exposure concentration risk and the collateral pledged by a counterparty. Credit decisions are made by individual approvers with the delegated credit authority.

#### (iii) Liquidity risk

Liquidity risk is the risk that the Group may be unable to fund the increase in assets or meet obligations as they fall due without incurring unacceptable losses.

The Group adopts conservative risk appetite in liquidity risk management and maintains adequate liquid assets to meet its day-to-day obligations as well as to withstand liquidity stress not less than one month. The Asset and Liability Management Committee (ALCO) is delegated by the Board, or its sub-committee, has reviewed and approved liquidity risk management policy which specifies a set of liquidity risk metrics and risk control limits for effective liquidity risk management. The key liquidity metrics, e.g. Liquidity ratio, loan-to-deposit ratio, maturity profile of assets and liabilities, and inter-bank undertakings are monitored under ALCO's supervision and be addressed to ALCO about the Group's liquidity position.

Since 1 January 2015, the HKMA has imposed Liquidity Maintenance Ratio ("LMR") as a regulatory standard which is a part of the implementation of Basel III liquidity regime in Hong Kong. During the period, the Group has sufficiently maintained the LMR well above the statutory minimum requirement of 25%.

## 11. RISK MANAGEMENT (continued)

### (iv) Market risk

Market risk is the risk of losses in assets, liabilities and off-balance sheet positions arising from movements in market rates and prices.

Market risk arising from the trading book is at acceptable level, as the Group maintains controllable positions of financial instruments leading to foreign exchange and interest rate exposures. Besides, structural foreign exchange exposure is to be detailed under (v) foreign exchange risk.

### (v) Foreign exchange risk

The Group has maintained a limited level of foreign exchange risk for both trading and customer order fulfillment. Structural foreign exchange exposure arising from investments in branches outside Hong Kong and subsidiaries is accounted for in the reserves account. Day-to-day foreign exchange management is performed by the Financial Markets Division within approved limits.

The Group takes on exposure to effect of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The Board sets limits on the level of exposure by currency and in total for both overnight and intra-day positions, which are monitored daily. Off-balance sheet notional position represents the contractual amounts of foreign currencies bought and sold under foreign exchange contracts.

### (vi) Interest rate risk

Interest rate risk is referred to the risk to the Bank's financial condition resulting from adverse movements in interest rates. This consists of repricing risk, basis risk, option risk and yield curve risks. Interest margins may increase as a result of such changes but may reduce or create losses in the event that unexpected movements arise. Limits are set on the level of mismatch of interest rate repricing that may be undertaken, which is monitored regularly. For trading, additional limits on interest rate sensitivities (also known as DV01) and stop loss are being enforced on daily basis.

The Group maintains controllable interest rate positions on its trading book, in addition to certain interest rate contracts entered into for the management of the Group's own risk with holding securities that are classified as trading. Interest rate risk arises primarily from the timing differences in the re-pricing of, and the different bases of pricing interest-bearing assets, liabilities and commitments, and from positions of non-interest bearing balances. Interest rate risk is monitored by regular sensitivity analyses of the net re-pricing gap and of different scenarios of pricing bases of assets and liabilities grouped with reference to their next contractual repricing date or maturity date.

### 11. RISK MANAGEMENT (continued)

#### (vii) Operational and legal risk

Operational risk is the risk of unexpected losses attributable to human error, systems failures, frauds, or inadequate internal controls and procedures.

Executive directors, division heads, department heads, in-house legal counsels, and internal auditors collaborate to manage operational and legal risks through proper human resources policies, delegation of authorities, segregation of duties, and timely and accurate management information. Senior management and the Audit Committee are accountable to the Board for maintaining a strong and disciplined control environment to provide reasonable assurance that the operational and legal risks are prudently managed.

A comprehensive contingency plan is available to ensure that the Bank's key business functions continue and normal operations are restored effectively and efficiently in the event of business interruption.

#### (viii) Reputation risk

Reputation risk is the risk that the Group's reputation is damaged by one or more than one reputation event that results in negative publicity about the Group's business practices, conduct or financial condition.

Reputation risk is managed by every member of staff. Through proper and adequate communications and public relation efforts, the reputation of the Group is fostered. A reputation risk management mechanism guided by the senior management including executive directors has been established to handle including, without limitation, media exposure as well as customers' and other stakeholders' complaints and suggestions, and to ensure that business activities and agents and/or bodies acting on the Group's behalf do not jeopardise its reputation.
