 $^{^{\}star}$ This refers to the position under the Banking (Capital) Rules in force on 31 December 2012.

Notes to the template:

Elements where a more conservative definition has been applied in the BCR relative to that set out in Basel III capital standards:

| Row | s where a more conservative definition has been applied in the BCR relative to that set out in Basel III capital standards: | Hong Kong | Basel III | |
|----------|--|--|---|--|
| | Description | basis | basis | |
| | Explanation As set out in paragraph 87 of the Basel III text issued by the Basel Committee (December 2010), mortgage servicing rights (MSRs) may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to follow the accounting treatment of including MSRs as part of intangible assets reported in the AI's financial statements and to deduct MSRs in full from CET1 capital. Therefore, the amount to be deducted as reported in ow 9 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 9 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of MSRs to be deducted to the extent not in excess of the 10% threshold set for MSRs and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III. | | | |
| | Deferred tax assets net of deferred tax liabilities | 5,771 | 0 | |
| 10 | Explanation As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010), DTAs that rely on future pro deducted, whereas DTAs which relate to temporary differences may be given limited recognition in CET1 capital (and hence be excluded to the specified threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, from CET1 capital. The reported in row 10 may be greater than that required under Basel III. | ded from deduction erefore, the amount | from CET1 capital up to be deducted as | |
| | The amount reported under the column "Basel III basis" in this box represents the amount reported in row 10 (i.e. the amount reported reducing the amount of DTAs to be deducted which relate to temporary differences to the extent not in excess of the 10% threshold set differences and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in C sector entities (excluding those that are loans, facilities and other credit exposures to connected companies) under Basel III. | et for DTAs arising fr | om temporary | |
| | Insignificant capital investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold) | 0 | 0 | |
| 18 | Explanation For the purpose of determining the total amount of insignificant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. | | | |
| | Therefore, the amount to be deducted as reported in row 18 may be greater than that required under Basel III. The amount reported u box represents the amount reported in row 18 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggreater than that required under the amount reported under the "Hong Kong basis") adjusted by excluding the aggreater to the Al's connected companies which were subject to deduction under the Hong Kong approach. | | | |
| | Significant capital investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold) | 0 | 0 | |
| 19 | Explanation For the purpose of determining the total amount of insignificant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. | | | |
| | Therefore, the amount to be deducted as reported in row 19 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 19 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the Al's connected companies which were subject to deduction under the Hong Kong approach. | | | |
| | Insignificant capital investments in AT1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold) | 0 | 0 | |
| 39 | Explanation The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in AT1 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 39 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 39 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the Al's connected companies which were subject to deduction under the Hong Kong approach. | | | |
| | Insignificant capital investments in Tier 2 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation | 0 | 0 | |
| 54 | Explanation The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in Tier 2 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 54 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 54 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the Al's connected companies which were subject to deduction under the Hong Kong approach. | | | |
| Remarks | | Capital\ Dulas | | |
| rrie amo | unt of the 10% / 15% thresholds mentioned above is calculated based on the amount of CET1 capital determined under the Banking (| Japital) Hules. | | |

Notes to the template:

| | s where a more conservative definition has been applied in the BCR relative to that set out in Basel III capital standards: | | | |
|------------|---|---|--|--|
| Row No. | Description | Hong Kong basis | Basel III basis | |
| 1101 | Other intangible assets (net of associated deferred tax liability) | 0 | 0 | |
| 9 | Explanation As set out in paragraph 87 of the Basel III text issued by the Basel Committee (December 2010), mortgage servicing rights (MSRs) may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to follow the accounting treatment of including MSRs as part of intangible assets reported in the AI's financial statements and to deduct MSRs in full from CET1 capital. Therefore, the amount to be deducted as reported in row 9 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 9 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of MSRs to be deducted to the extent not in excess of the 10% threshold set for MSRs and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III. | | | |
| | Deferred tax assets net of deferred tax liabilities | 4,697 | 0 | |
| 10 | Explanation As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010), DTAs that rely on future profit deducted, whereas DTAs which relate to temporary differences may be given limited recognition in CET1 capital (and hence be exclude the specified threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, from CET1 capital. Theref in row 10 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 10 (i.e. the amount reported). | ed from deduction fro fore, the amount to b | om CET1 capital up to e deducted as reported | |
| | reducing the amount of DTAs to be deducted which relate to temporary differences to the extent not in excess of the 10% threshold set differences and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CE sector entities (excluding those that are loans, facilities and other credit exposures to connected companies) under Basel III. | | | |
| | Insignificant capital investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold) | 0 | 0 | |
| 18 | Explanation For the purpose of determining the total amount of insignificant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. | | | |
| | Therefore, the amount to be deducted as reported in row 18 may be greater than that required under Basel III. The amount reported under the "Hong Kong basis") adjusted by excluding the aggregate exposures to the Al's connected companies which were subject to deduction under the Hong Kong approach. | | | |
| | Significant capital investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold) | 0 | 0 | |
| 19 | Explanation For the purpose of determining the total amount of insignificant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. | | | |
| | Therefore, the amount to be deducted as reported in row 19 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 19 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the Al's connected companies which were subject to deduction under the Hong Kong approach. | | | |
| | Insignificant capital investments in AT1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold) | 0 | 0 | |
| 39 | Explanation The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in AT1 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 39 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 39 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach. | | | |
| | Insignificant capital investments in Tier 2 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation | 0 | 0 | |
| 54 | Explanation The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capi considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom we exemption from capital deduction of other insignificant capital investments in Tier 2 capital instruments may be smaller. Therefore, the assume that the trequired under Basel III. The amount reported under the column "Basel III basis" in this box represents the reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the subject to deduction under the Hong Kong approach. | vithin the threshold a amount to be deduct amount reported in | vailable for the ed as reported in row row 54 (i.e. the amount | |
| Remarks | s: bunt of the 10% / 15% thresholds mentioned above is calculated based on the amount of CET1 capital determined under the Banking (Ca | anital) Rulos | | |
| THE alli0 | want of the 10767 1076 thresholds mentioned above is calculated based on the amount of CETT Capital determined under the Banking (Ca | apılaı) nules. | | |
