Caring parents would like their children to flourish and possess prosperous future; they also concern much about the quality of education their children receive. To ensure your kids receive quality education, a comprehensive savings protection plan is indispensable. In addition, you should tie in with the Government's education policy when preparing the education fund for your kids. No. 1 Kid Savings Protection Plan (The "Plan") is designed to tie in with the "334" academic structure and provides your kids with adequate education fund to continue their studies.

Guaranteed Cash Coupon to match with New Academic Structure

The Plan starts to offer Guaranteed Cash Coupon¹ which is equal to 5% of the Sum Assured annually as early as the Life Insured enters secondary school at aged 15 to 17. When the Life Insured enters university at aged 18 to 21, the annual Guaranteed Cash Coupon¹ will increase tremendously to 20% of the Sum Assured which can be used to pay for different education or overseas education expenses flexibly.

Guaranteed Cash Bonus for Academic Achievements

When the Life Insured reaches aged 18, Guaranteed Cash Bonus¹ which is equal to 1% of the Sum Assured, will be distributed to celebrate his/her new life in university. When the Life Insured reaches aged 21, an additional Guaranteed Cash Bonus¹ which is equal to 5% of the Sum Assured, will be paid to celebrate his/her graduation.

| Life Insured's Age | No. of Distribution | Guaranteed Cash Coupon ¹ (% of Sum Assured) | Guaranteed Cash Bonus ¹ (% of Sum Assured) |
|--------------------|-------------------------------------|--|---|
| 15 to 17 | Once every year, a total of 3 times | 5% every year, a total of 15% | --- |
| 18 | Once | 20% | 1% |
| 19 to 20 | Once every year, a total of 2 times | 20% every year, a total of 40% | --- |
| 21 | Once | 20% | 5% |

The sum of Guaranteed Cash Coupon and Guaranteed Cash Bonus is equal to 101% of the Sum Assured.

Annual Dividend² Providing Extra Return

Annual Dividend (non-guaranteed)² may be distributed annually in terms of cash. You can choose cash withdrawal, leaving it with the Policy for interest accumulation² or premium reduction to meet your personal needs.

Life Protection for Peace of Mind

Apart from savings, the Plan also provides life coverage until the Life Insured reaches aged 21. If the Life Insured dies while the Plan is in force, the Total Death Benefit which is equal to the Sum Assured, plus Accumulated Guaranteed Cash Coupon (if any), Accumulated Guaranteed Cash Bonus (if any) and Accumulated Dividends and Interest (non-guaranteed)^{2,3} (if any), less Indebtedness (if any) will be paid to the Policy Beneficiary. The Sum Assured will not be reduced even if the Guaranteed Cash Coupon and Guaranteed Cash Bonus have been distributed.

Important Statements

Risk

1. Exchange Rate Risk

If the Policy Value and premium of the Plan are calculated in USD, all benefit amount will be presented in USD. If the benefit amount is received in terms of HKD, it is subject to the exchange rate between USD and HKD as determined by Hong Kong Life at the time of payment. Due to the potential fluctuation of the exchange rate, if USD depreciates substantially against HKD, there is a risk that you may lose a substantial portion of the benefit value (calculated in HKD) of your Policy; if USD appreciates substantially against HKD, there is a risk that the premium (calculated in HKD) of the Policy may be substantially increased.

2. Liquidity Risk / Long Term Commitment

The Plan is designed to be held until the Maturity / Expiry Date. If you terminate the Policy prior to the Maturity / Expiry Date, a loss of the premium paid may be resulted.

The premium of the Plan should be paid in full for the whole payment term. If you discontinue the payment, the Policy may lapse and a loss of the premium paid may be resulted.

3. Credit Risk of Issuer

The Plan is issued and underwritten by Hong Kong Life. Your Policy is subject to the credit risk of Hong Kong Life. In the worst case, you may lose all the premium paid and benefit amount.

4. Market Risk

The amount of dividends (if any) of the Plan depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax; while the annual interest accumulation rate principally depends on the factors including investment performance and market conditions. Hence the amount of dividends (if any) and annual interest accumulation rate are not guaranteed and may be changed over time. The actual dividends payable and annual interest accumulation rate may be higher or lower than the expected amount and value at the time when the Policy was issued.

5. Inflation Risk

When reviewing the values shown in the Insurance Proposal, please note that the cost of living in the future is likely to be higher than it is today due to inflation.

Important Policy Provisions

6. Suicide

If the Life Insured commits suicide, while sane or insane, within one (1) year from the Issue Date or date of any reinstatement, whichever is later, the liability of Hong Kong Life shall be limited to a refund of paid premiums to the Beneficiary without interest less any existing Indebtedness. In the case of reinstatement, such refund of premium shall be calculated from the date of reinstatement.

This clause shall not apply to any Supplementary Benefit granting disability, accident or hospital benefits attached to the Policy unless stated otherwise in the contrary.

7. Incontestability

The validity of the Policy shall not be contestable except for (i)the non-payment of premiums, (ii)fraud or (iii)misstatement of age and/or sex as specified in the Misstatement of Age and/or Sex provisions, after it has been in force during the lifetime of the Life Insured for two (2) years from the Issue Date or date of any reinstatement, whichever is later. Premiums paid will not be refunded should the Policy be voided by Hong Kong Life.

This clause shall not apply to any Supplementary Benefit granting disability, accident or hospital benefits attached to the Policy unless stated otherwise in the contrary.

8. Automatic Termination

The Plan shall terminate automatically:

1. upon the death of the Life Insured; or
2. if and when the Plan matures, is surrendered or converted to Reduced Paid-Up Insurance or Extended Term Insurance; or
3. if and when a premium remains unpaid at the end of the Grace Period as specified in the General Provisions unless Automatic Premium Loan applies; or
4. if and when the Indebtedness of the Policy equals to or exceeds the Guaranteed Cash Value as shown on the Policy Schedule.

Others

9. Insurance Costs

The Plan is an insurance plan with a savings element. Part of the premium pays for the insurance and related costs (if any).

10. Policy Fee

Part of the premium of the Plan pays for the Policy Fee, the current annual Policy Fee is HKD240 / USD30.

11. Cooling-off Period

If you are not satisfied with your Policy, you have a right to cancel it within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid (in the original payment currency) to Hong Kong Life without any interest. A written

notice signed by you should be received by Hong Kong Life Insurance Limited at 15/F Cosco Tower, 183 Queen's Road Central, Hong Kong within the cooling-off period (that is, 21 days after the delivery of the Policy or issue of the Cooling-off Right Notice (informing you/your representative about the availability of the Policy and Expiry Date of the cooling-off period), whichever is the earlier). After the expiration of the cooling-off period, if you cancel the Policy before the end of the term, the projected Total Surrender Value (if applicable) may be less than the Total Premiums Paid.

12. Dividends

Hong Kong Life determines the amount of divisible surplus that will be distributed in the form of dividends. Dividends will be determined and distributed according to the Policy's terms and conditions and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of policies and payable at the termination of the policies.

The amount of divisible surplus depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax. Hence the amount of dividends is not guaranteed and may be changed over time. The actual dividends payable may be higher or lower than the expected amount at the time when the policies were issued. The withdrawal of dividends will decrease the Total Surrender Value and Total Death Benefit of the Policy.

13. Cash Payments

The withdrawal of cash payments will decrease the Total Surrender Value and Total Death Benefit of the Policy.

14. Policy Loan

After the Plan has acquired a Guaranteed Cash Value and while the Policy is in force, the Policyowner may, upon the sole security and satisfactory assignment of the Policy to Hong Kong Life, apply for a Policy Loan from the Plan. Any loan on the Policy shall bear interest at a rate declared by Hong Kong Life from time to time. Interest on the loan shall accrue and compound daily from the date of loan. The Policy Loan Interest Rate is not guaranteed and will be changed from time to time. The loan and the interest accrued thereon shall constitute Indebtedness against the Policy. Interest shall be due on each Policy Anniversary subsequent to the date of loan. In the event that the Indebtedness of the Policy equals to or exceeds the Guaranteed Cash Value as shown on the Policy Schedule, the Policy will terminate. Any Policy Loan and accrued loan interest may reduce the Total Surrender Value and Total Death Benefit of the Policy.

15. Non-Protected Deposit

The Plan is not equivalent to, nor should it be treated as a substitute for, time deposit. The Plan is not a protected deposit and is not protected by the Deposit Protection Scheme in Hong Kong.

16. Dispute on Selling Process and Product

Chong Hing Bank Limited (“Appointed Insurance Agency”) is the Appointed Insurance Agency of Hong Kong Life, and the insurance product is a product of Hong Kong Life but not the Appointed Insurance Agency. In respect of an eligible dispute (as defined in the Terms of Reference for the Financial Dispute Resolution Centre in relation to the Financial Dispute Resolution Scheme) arising between the Appointed Insurance Agency and the customer out of the selling process or processing of the related transaction, Appointed Insurance Agency is required to enter into a Financial Dispute Resolution Scheme process with the customer; however any dispute over the contractual terms of the product should be resolved between Hong Kong Life and the customer directly.

Dividend Policy

Hong Kong Life offers a comprehensive range of life insurance products which provide both guaranteed and non-guaranteed benefits to the Policyowners depending on the specific features of different products.

The guaranteed benefits generally include the insurance coverage payable on death, maturity, or disablement as well as guaranteed cash value for loan or Policy cancellation. The non-guaranteed benefits are the dividends (including Annual Dividend and Terminal Dividend) and rate of interest (referred to as “interest accumulation rate”) on Annual Dividend and other cash payments left on deposit under a Policy. The rate of interest may vary at the discretion of Hong Kong Life. Past dividends record is not indicative of future performance.

The amount available for distribution as dividends to relevant classes of Policyowner is determined by the Appointed Actuary of Hong Kong Life in accordance with Hong Kong Life’s internal dividend management. The amount depends on both the emerging experience and the future best estimate assumption including investment returns, claim payments, policy persistency rates, operation expenses and tax. The Appointed Actuary will also report to the Board of Hong Kong Life on the Policy covering allocation of profits between shareholders and participating fund for approval, taking into account the principle of fair treatment of customers, and the equity between shareholders and Policyowners.

Dividends will be determined and distributed according to the Policy’s dividend provision and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of Policies and payable upon termination of the Policies.

As stated, the amount of dividends will vary according to the emerging experience of the above factors and types of the products. Hong Kong Life applies a smoothing approach in relation to the distribution of the dividends. It will only be modified if the actual experience over the long term is significantly different from expected or if the future long term expectation is changed.

Policyowners may also choose to leave their Annual Dividend or other cash payments with Hong Kong Life to earn interest at a rate determined by Hong Kong Life based on its investment performance and market conditions. As a consequence, the interest accumulation rates are not guaranteed and may be adjusted from time to time.

Investment Policy
